January 14, 2014

Ms. Susan Kannarr, Chief Clerk
Kansas House of Representatives
300 SW 10th Ave., Room 272-W
Topeka, KS 66612-1504

Dear Ms. Kannarr:

Legislative action during the 1996 session resulted in the creation of the Abandoned Well Plugging and Site Remediation Fund. K.S.A. 55-192 and K.S.A. 55-193 provide funding for the plugging of abandoned wells and the remediation of contamination sites. The Conservation Division of the Kansas Corporation Commission regulates oil and gas activities within the state and by statute the Commission has jurisdiction over all oil and gas contamination. With the creation of the Abandoned Oil & Gas Well / Remediation Fund, additional sources of funding in the form of approximately $400,000 each from the State General fund, the State Water Plan, one half of the state's revenue from the Federal Mineral Leasing Program, and an additional assessment on oil and gas production were dedicated to the problem of abandoned oil and gas wells and associated contamination sites in the state for which there is no responsible party.

Further, K.S.A. 55-194 section a. provides that a report be submitted to your attention concerning the status of active contamination sites to include a description and evaluation of the site, the impact and immediacy of the threat to public health or the environment, the level of remediation recommended and an estimated cost to achieve remediation.

K.S.A. 55-194 section b. provides that a report be submitted concerning: 1) the status of the abandoned well inventory including the documentation of the number of unplugged abandoned wells; 2) a system for ranking wells with respect to the potential threat posed to the environment or public health and safety by those wells; and 3) a multi-year plan dealing with unplugged abandoned wells.

The Commission has been charged with delivering copies of the referenced reports to the Governor, and the Chairperson and ranking minority member of the Senate committee on Natural Resources and of the House of Representatives committee on Energy and Utilities.

If additional information is needed or if you have any questions, please feel free to contact me. The reports can also be viewed on our web site at http://kcc.ks.gov

Sincerely,

Kim Christiansen
Executive Director

Ryan A. Hoffman

## *Abandoned Oil and Gas Well Status Report*

2012

# DISCLAIMER

# ABANDONED WELL REPORT

## January 2014

This report is a list and ranking of abandoned wells in the State of Kansas, which are under investigation by the Conservation Division of the Kansas Corporation Commission. A listing of any individual well reflects its status as of the time of investigation or more recent update thereof. The investigation is by no means exhaustive. The Commission makes no warranty as to any recorded, unrecorded or misrecorded leases, deeds or other legal documents; any liens on file with the Uniform Commercial Code filing clerk of the respective Register of Deeds or the Secretary of State; any tax lien, be they Federal, State, County, or otherwise of any nature whatsoever; judgment liens by virtue of a civil, criminal, domestic, or probate proceeding; any recording in Federal Court for the District of Kansas; any security interest or financing statement purporting to claim an interest in said well or the property attendant thereto by any bank, lending institution, or creditor, or any subsequently file instrument of any nature whatsoever. In addition, this report should not be disseminated for any purpose whatsoever which is impermissible under K.S.A. 45-201 *et seq*.

The physical tampering with or removal of any surface or subsurface equipment associated with an abandoned well may place that person or entity in the chain of responsibility for the proper operation and/or plugging of that well or wells pursuant to Kansas Statutes and/or KCC regulations. The operation of oil and gas facilities within the State of Kansas requires licensure by the Kansas Corporation Commission and complete adherence to KCC rules and regulations. Licensing information and a complete copy of the rules and regulations of the Kansas Corporation Commission, Conservation Division, is available upon request or available at the Conservation Division Internet Home page at http://kcc.ks.gov/conservation/index.htm.

**Abandoned Oil & Gas Exploration and Production Wells**
**January 14, 2014**

## Introduction

Legislative action during the 1996 session resulted in the creation of the Abandoned Well Plugging and Site Remediation Fund. K.S.A. 55-192 and K.S.A. 55-193 for the first time provided for alternative funding to the Kansas Corporation Commission for the expressed purpose of addressing the problem of abandoned oil and gas wells located within the state. The legislation requires that the Commission prepare and maintain an inventory of all abandoned wells with a special focus on wells which, (1) the State of Kansas has assumed the plugging liability because of the lack of a potentially responsible party (No PRP); and, (2) pose either an ongoing or potential threat to the environment (Priority I). The Commission was further directed to develop and maintain such an inventory on a computer database and report to the office of the Governor and certain legislative committees the status of the inventory as well as the Commission's efforts towards plugging those wells which pose a threat to the public safety and/or environment.

## Computer Database / Data Collection

The application used in the inventory tracking system is a Microsoft Access database on a PC based platform. Field data is collected onsite in the four District offices. It is then entered into the system so it can be used to create a variety of reports concerning the abandoned wells. The amount of information on each well is extremely variable, primarily dependent on the location of the well and its age. Those wells located in the Eastern portion of the state are generally older with very little detailed information available from industry or historical Commission files.

## Priority Ranking

### (Priority I)

Wells within the Priority I grouping have been subdivided on the basis of resources impacted and by the location or condition of the individual abandoned well. Impacts are categorized as: surface waters (SW), groundwater (GW), or concern public safety issues (PS). The listing below provides definitions for Priority Action Levels within the Priority I inventory. In general, Level "A" wells are the most serious cases while Level "C" wells are less serious.

Priority I Action Levels

| | |
|---|---|
| Level A – Surface Water (SW) | Wells actively discharging oil or brine into surface waters with significant ongoing impacts to surface water. (Includes wells with moderate to high volumes of discharge impacting public water supplies or sole source water supplies.) |
| Level A – Groundwater (GW) | Wells creating significant ongoing or potential impacts to groundwater supplies through water quality degradation or loss of water supplies through downward drainage. (With emphasis on impacts to groundwater supplies used for public water supplies or sole source supplies and cases of active subsidence caused by downward drainage.) |

| | |
|---|---|
| Level A – Public Safety (PS) | Wells creating an ongoing or current threat to public safety. (Includes wells with active gas flows with danger of ignition or open large diameter wellbores or casings in urban or suburban settings.) |
| Level B – Surface Water (SW) | Wells intermittently to actively discharging oil or brine into surface waters with ongoing impacts to surface water. (Includes wells with low to moderate volumes of discharge impacting water resources outside of public water supplies. Alternative water supplies available.) |
| Level B – Groundwater (GW) | Wells creating ongoing or potential impacts to groundwater supplies through water quality degradation or loss of water supplies through downward drainage. (Includes wells with impacts to groundwater supplies outside of public water supply areas and cases of strong potential for subsidence.) |
| Level B – Public Safety (PS) | Wells creating a current or ongoing threat or potential danger to public safety. (Includes wells with active gas flows with danger of ignition and/or open large diameter wellbores or casings located in rural, low population areas.) |
| Level C – Surface Water (SW) | Wells located outside of sensitive groundwater areas, which are intermittently discharging oil and/or brine or have potential for discharge into surface waters. |
| Level C – Groundwater (GW) | Wells located outside of sensitive groundwater areas which have potential impacts to groundwater supplies or loss of water resources through downward drainage. |
| Level C – Public Safety (PS) | Wells creating a potential danger to public safety. (Includes secured gas wells in populated areas.) |

**(Priority II)**

Wells within the Priority II grouping consist of wells of relatively modern construction which do not pose either an ongoing or potential threat to the public safety or the environment. These wells have adequate surface pipe in place with which to protect shallow freshwater aquifers and are generally located in environmentally non-sensitive areas. These wells fall within the lowest priority ranking for authorization of plugging with Abandoned Oil and Gas Well / Remediation Fund monies. It is important that these wells be documented within the inventory and periodically inspected to determine if well conditions have changed to a sufficient degree to warrant upgrading to Priority I status.

**Status of the Inventory**

The current abandoned oil and gas well inventory stands at 18,161 wells, which includes 8,951 wells plugged, 303 wells currently approved for plugging, 5,096 wells still requiring action, and 3,811 wells no longer requiring action for other reasons. This total, which includes both Priority I and Priority II wells, represents a total increase of 430 wells over that reported in January 2013. This increase represents the addition of 433 Priority I wells to the inventory and a decrease of 3 Priority II wells. The original 1995 estimate of wells fitting the criteria of Priority I ranking with no potential responsible party available to fund plugging operations was 14,759 wells. KCC field staff, as of the date of this report, have listed 17,012 of these types of wells. As a percentage of the total original estimate, the statewide inventory is complete, however KCC staff continue to find and add to the inventory several hundred abandoned wells per year. The accompanying map and diagrams provide an overview of the data collected with respect to Priority I severity levels and impacts on both a statewide basis and within individual KCC District areas. The tables below summarize this data.

PRIORITY I WELLS – TOTAL NUMBER OF ABANDONED WELLS

| District | Level A | Level B | Level C | Total |
|---|---|---|---|---|
| 1 | 29 | 58 | 55 | 142 |
| 2 | 200 | 130 | 48 | 378 |
| 3 | 2950 | 7092 | 5781 | 15823 |
| 4 | 241 | 316 | 112 | 669 |
| Totals | 3420 | 7596 | 5996 | 17012 |

PRIORITY I WELLS – TOTAL NUMBER OF ABANDONED WELLS

| District | Surface Water (SW) | Groundwater (GW) | Public Safety (PS) |
|---|---|---|---|
| 1 | 2 | 138 | 2 |
| 2 | 43 | 254 | 81 |
| 3 | 3464 | 11921 | 438 |
| 4 | 15 | 633 | 21 |
| Totals | 3524 | 12945 | 542 |

TOTAL NO. OF ABANDONED WELLS REQUIRING ACTION

| District | Priority 1 | Priority 2 | Total |
|---|---|---|---|
| 1 | 15 | 8 | 23 |
| 2 | 76 | 7 | 83 |
| 3 | 4239 | 685 | 4924 |
| 4 | 63 | 3 | 66 |
| Totals | 4393 | 703 | 5096 |

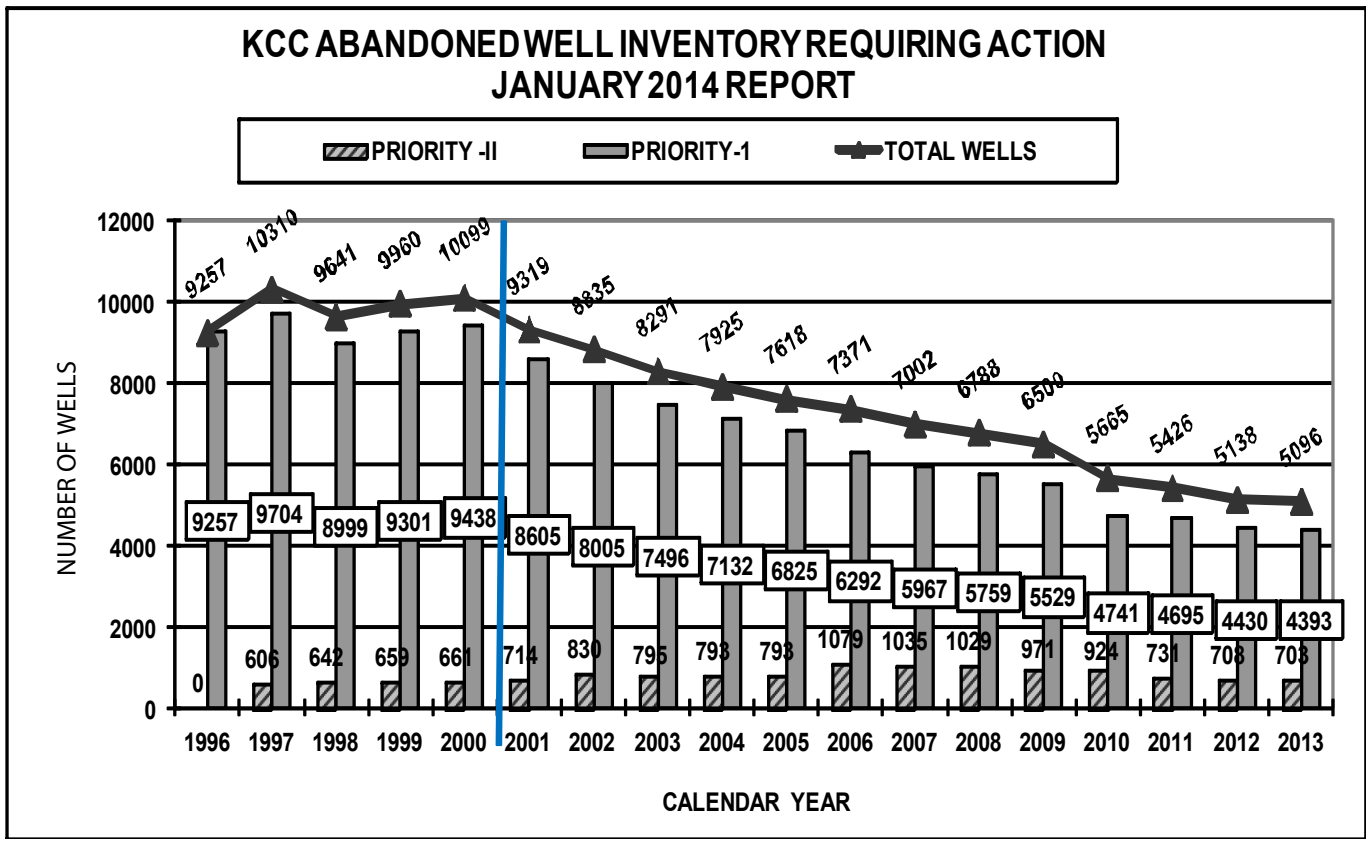
PRIORITY 1 WELLS BY POLLUTION LEVEL – REQUIRING ACTION

| District | Level A | Level B | Level C | Total |
|---|---|---|---|---|
| 1 | 0 | 12 | 3 | 15 |
| 2 | 0 | 60 | 16 | 76 |
| 3 | 1 | 1000 | 3238 | 4239 |
| 4 | 0 | 38 | 25 | 63 |
| Totals | 1 | 1110 | 3282 | 4393 |

It should be emphasized that this inventory is an ongoing and active system that is currently being updated on a weekly basis. Specific well data must be considered as part of a dynamic process and subject to change as the inventory proceeds. The net reduction in abandoned wells requiring action each year is the composite of wells plugged, wells added to the inventory as a result of new finds or responsible parties moving to defunct status, and wells otherwise removed from inventory or as responsible parties are discovered.

It had been anticipated that many more abandoned wells would be added to the inventory (1,851 wells added since July 2008) as a result of the 2008 Commission order in the "Quest" decision (07-CONS-155-CSHO). The recent Judicial review of Docket 11-CONS-253-CSHO (Denman et al) essentially reversing the KCC Quest decision of 2008 will significantly impact the PRP determinations for abandoned wells going forward. Compliance actions may increase, as more (multiple) operators may now be responsible for abandoned wells. Because the compliance actions may result in an increased number of potentially responsible parties, there may also be a decrease in the number of abandoned wells added to the inventory. At this time, the matter is pending an appeal to the Kansas Court of Appeals.

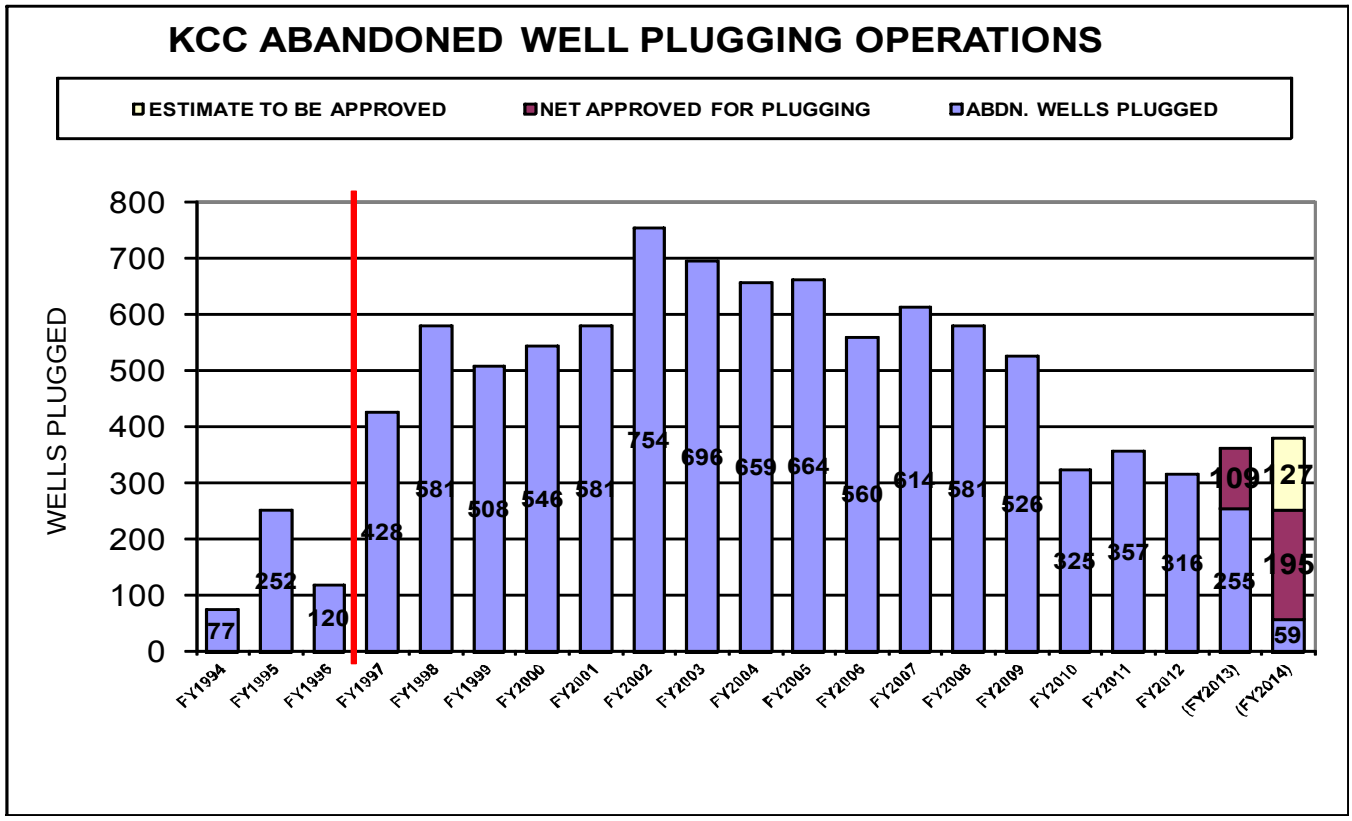
The complete inventory of individual wells awaiting plugging authorization is provided in Appendix A and B of this report. The wells in these listings show the following data for each well: Priority Level, Lease Name, Well Number, District, County, Spot Location, Section, Township, Range, and Impact. Appendix C provides data for wells which have either been plugged or have been approved for plugging with expenditures from the Abandoned Oil and Gas Well / Remediation Fund. An accounting of approved expenditures to date is also enclosed within this section.



## FY2013 / FY2014 REPORT DETAIL
## ABANDONED WELLS PLUGGED / APPROVED TO BE PLUGGED

| | FY 2013 (YTD) | FY 2014 (YTD) |
|---|---|---|
| NO. OF ABANDONED WELLS (Approved for plugging) | 372 | 254 |
| ADJUSTMENTS TO NO. OF ABANDONED WELLS APPROVED FOR PLUGGING (Wells not located, wells identified as previously plugged) | -8 | 0 |
| NET NO. OF ABANDONED WELLS (Approved for plugging) | 364 | 254 |
| NO. OF ABANDONED WELLS (Plugging Operations Completed) | 255 | 59 |
| NO. OF ABANDONED WELLS (Plugging operations completed, invoiced and paid) | 253 | 54 |

The number of wells plugged annually has increased significantly since the inception of the Abandoned Oil and Gas Well / Remediation Fund in FY97. Approximately **8,951** abandoned wells have been plugged under this program to date. The graph below illustrates the annual total of wells plugged:



**Abandoned Well Plugging Program Forecast**

The Abandoned Well Plugging and Site Remediation Fund was scheduled to sunset on June 30, 2009. The 2008 Legislature acted to extend the Fund by seven years to June 30, 2016, in order to continue plugging abandoned wells in Kansas at meaningful levels.

The table below is a history and forecast for the Abandoned Well Plugging Program. These projections are dependent on the continued funding of this program. The average plugging costs per well have shown overall increases since 2004 due to increasing oil & gas prices, which drive supply and demand for materials and a diminishing number of industry plugging contractors. Revenues to the Abandoned Well Plugging Program after FY2009 have decreased substantially. The statutory transfer from the State General Fund has not been made since FY2003. Supplemental compensating transfers from the Conservation Fee Fund to the Plugging Fund above the normal $400,000/year have not occurred after FY2009. The transfers from the State Water Plan were reduced for FY2009, 10, & 11, but transferred $400,000 for FY2013 & 14. The transfers from the Federal Mineral Royalty Trust have decreased substantially over the last several years, primarily due to lower natural gas prices. The 2013 Legislature approved the transfers of $500,000 from the Financial Assurance Fund for FY2014 & FY2015.

The KCC plugs as many of the highest ranked abandoned wells as possible each current year, as well as forecast years, within the limits of the program revenues. Normally, the wells plugged are ranked priority 1-A or 1-B. Lower ranked wells are plugged only when incidental to larger projects containing predominantly higher ranked wells. At the beginning of each fiscal year, a projection is made based on estimated per-well costs and program revenues to determine a plugging target, as well as Remediation Site project needs. That plugging target is adjusted up or down during the year as actual revenues and per-well costs are realized. Program Funds may also be shifted between well plugging projects and site remediation projects as the year evolves.

| ACTUAL / PROJECTED WELL PLUGGING BY FISCAL YEAR | | | |
|---|---|---|---|
| | AW TOTAL$ | # PLUGGED | AVG WELL $ |
| FY1997 | $1,732,796 | 428 | $4,049 |
| FY1998 | $1,584,272 | 581 | $2,727 |
| FY1999 | $1,269,744 | 508 | $2,499 |
| FY2000 | $1,566,721 | 544 | $2,880 |
| FY2001 | $1,963,468 | 581 | $3,379 |
| FY2002 | $1,786,320 | 754 | $2,369 |
| FY2003 | $2,192,210 | 696 | $3,150 |
| FY2004 | $1,985,875 | 659 | $3,013 |
| FY2005 | $2,224,291 | 664 | $3,350 |
| FY2006 | $2,061,552 | 560 | $3,681 |
| FY2007 | $2,494,229 | 614 | $4,062 |
| FY2008 | $2,869,561 | 581 | $4,939 |
| FY2009 | $2,036,146 | 526 | $3,871 |
| FY2010 | $1,456,975 | 325 | $4,483 |
| FY2011 | $1,618,638 | 357 | $4,534 |
| FY2012 | $1,360,064 | 316 | $4,304 |
| FY13 T/D | $1,638,908 | 364 | $4,500 |
| FY14 EST | $2,095,355 | 381 | $5,500 |
| FY15 EST | $2,046,788 | 390 | $5,250 |
| FY16 EST * | $1,931,042 | 351 | $5,500 |
| FY17 EST ** | $1,915,611 | 333 | $5,750 |

*Projections assume resumed statutory transfers of $400,000 from General Fund in FY2016 & 17.
** Current program Sunset Date is June 30, 2016.

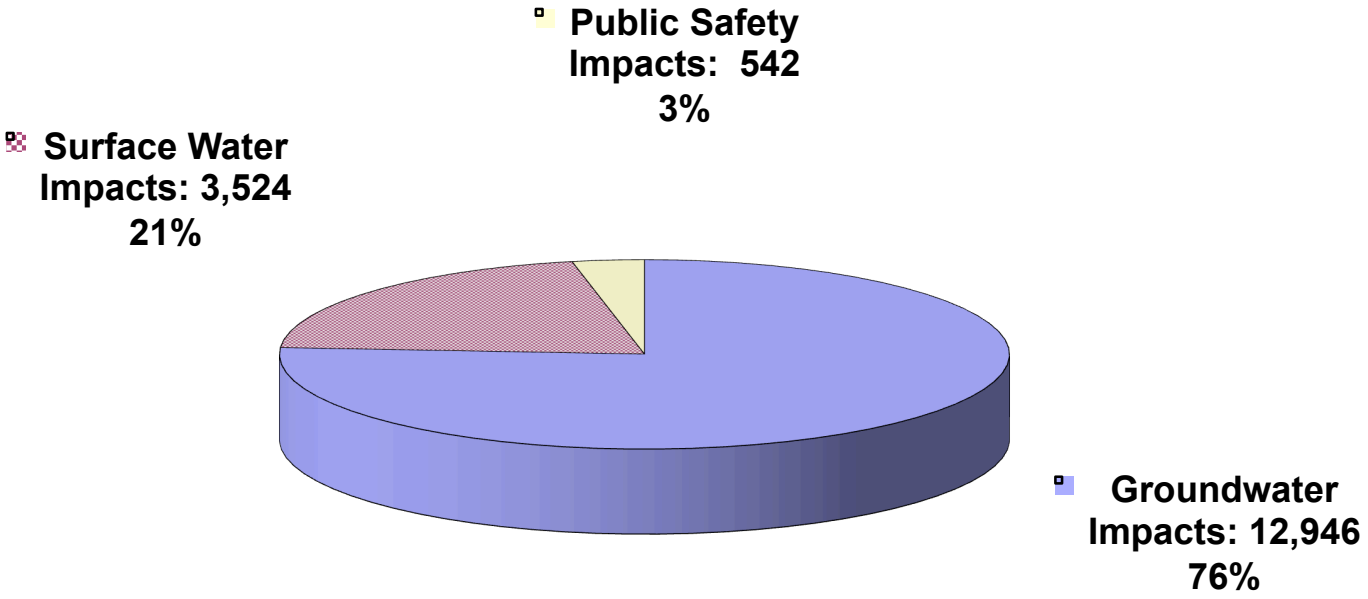
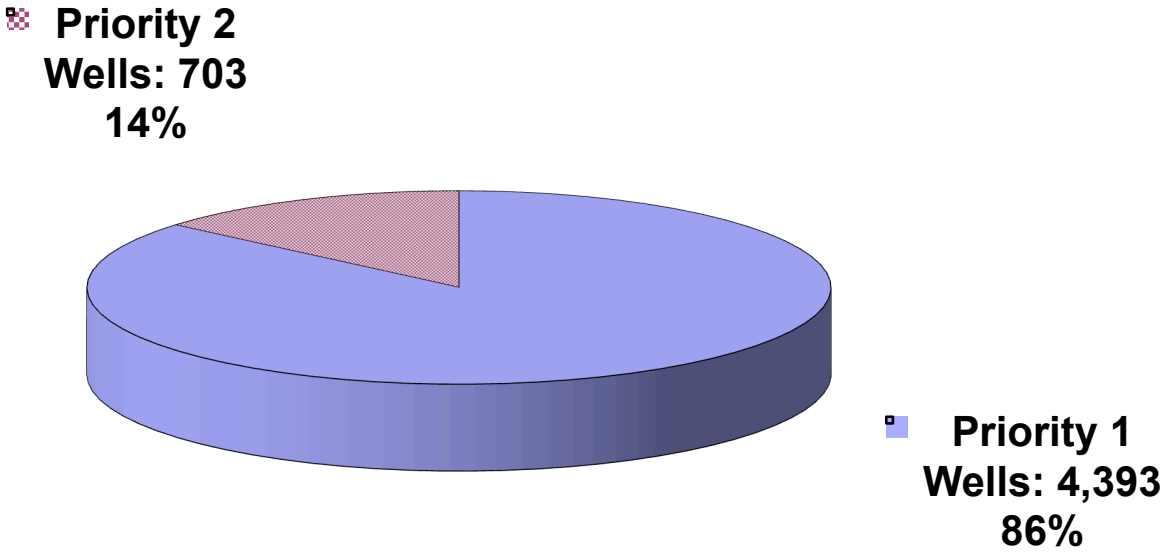
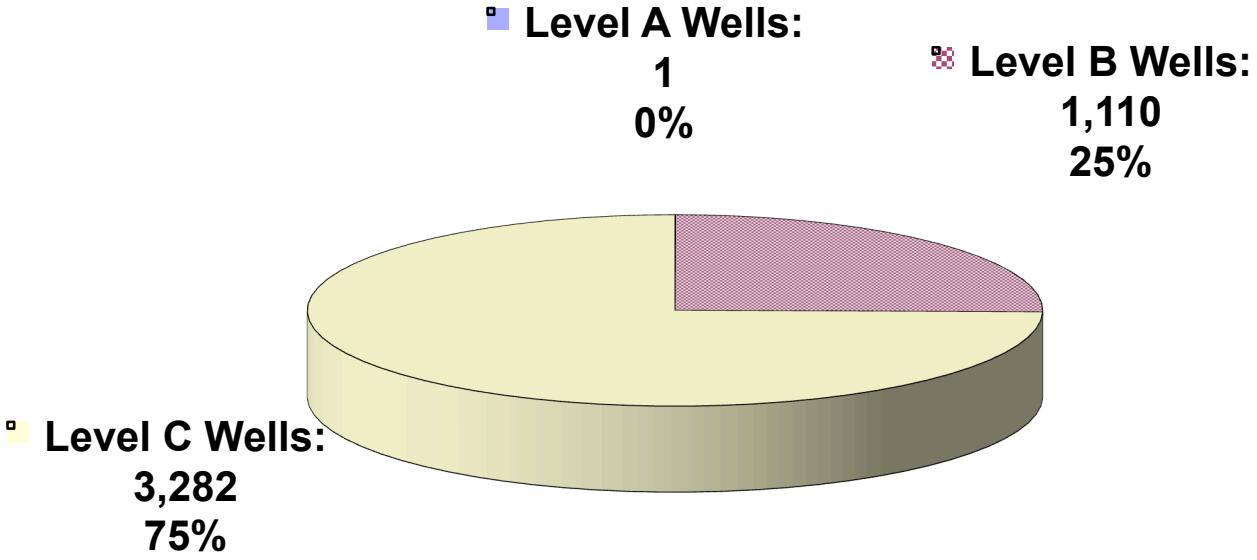
# Impact of Priority 1 Wells



## STATEWIDE TOTAL NUMBER OF ABANDONED WELLS REQUIRING ACTION: 5,096



## POLLUTION LEVEL OF THE 4,393 PRIORITY 1 WELLS



# District 1

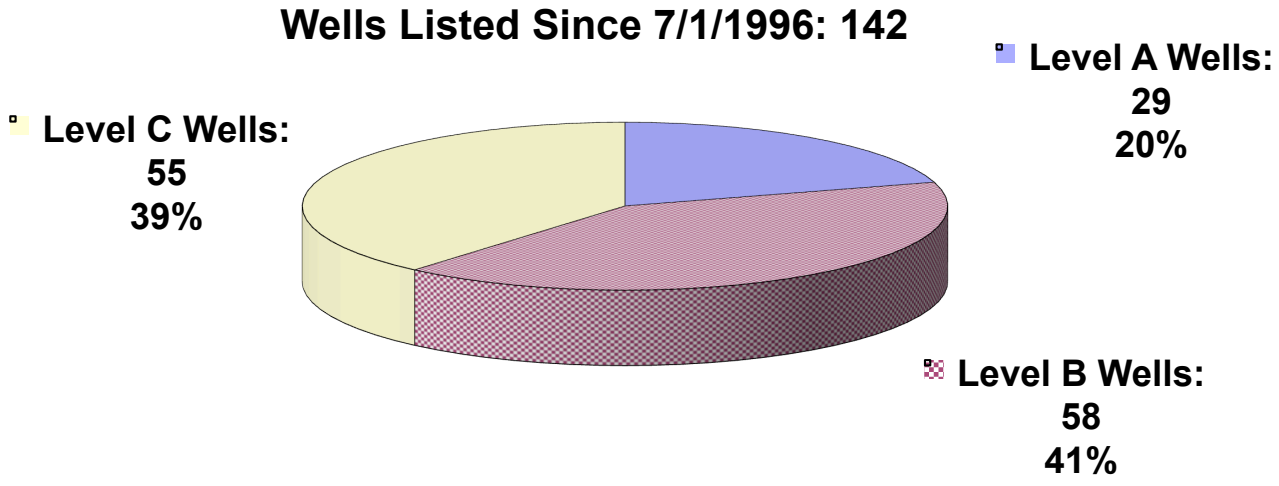
**Loc. of Field Office:** Dodge City

**Staffing Level:** 1 Supervisor, 1 Environmental Geologist, 5 Field staff, 1 unclassified Horizontal Drilling Field staff and 1 Support staff.

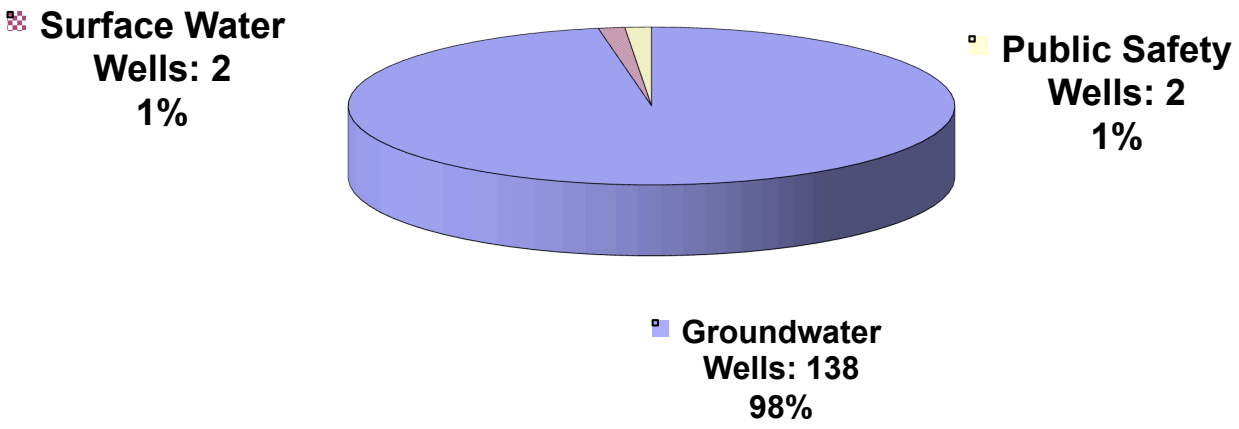
**Description:** The field area assigned to the District I field office encompasses a total of 27 counties in the southwestern portion of the state. Oil and gas production has been established in all of the counties within the district. In general oil production in the eastern portion of this district is of an older vintage than in the western part. Wells in this district are some of the deepest in the state. Operations are spread through a large geographic area in the district with a large concentration of gas wells within the Hugoton-Panoma area. A large portion of the District 1 area is underlain by the Ogallala aquifer, which is a primary source of drinking water and irrigation.

**Inventory Status:** Wells identified to date represent approximately 84% of the original 170 Priority **I** wells estimated for this district.

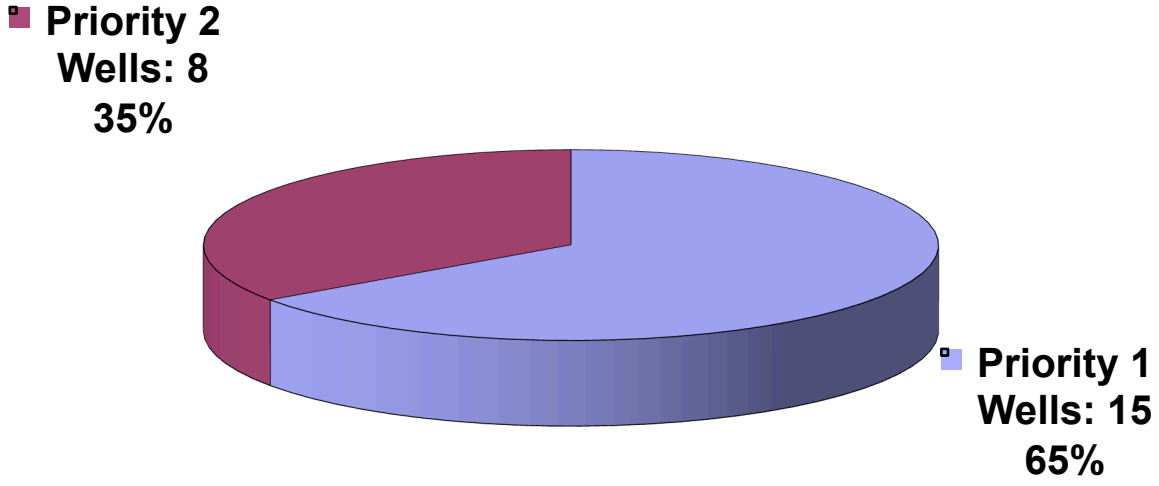
## Total Number Of Priority 1 Wells Listed Since 7/1/1996: 142



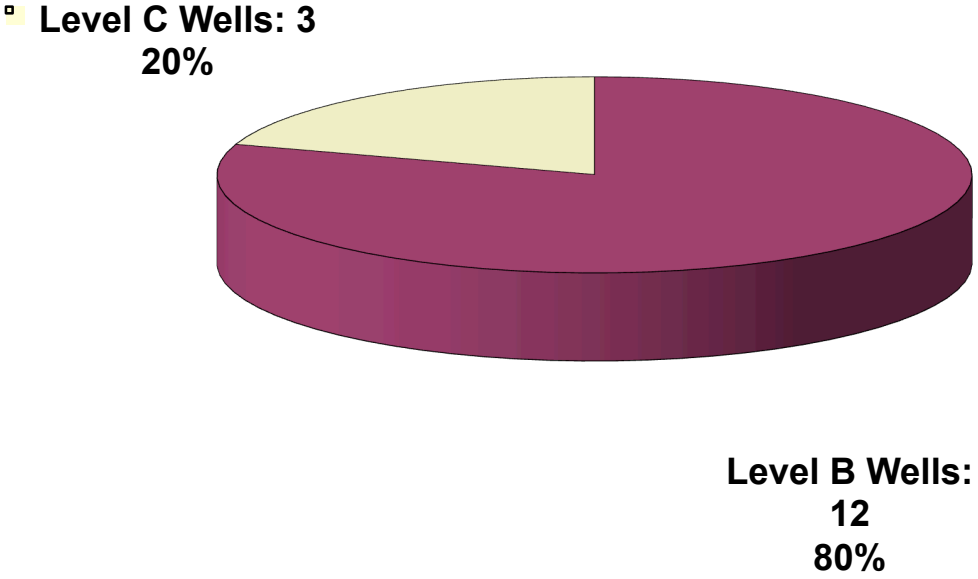
## Impact of Priority 1 Wells



## DISTRICT 1
## NUMBER OF ABANDONED WELLS
## REQUIRING ACTION: 23



## POLLUTION LEVEL OF THE 15
## PRIORITY 1 WELLS



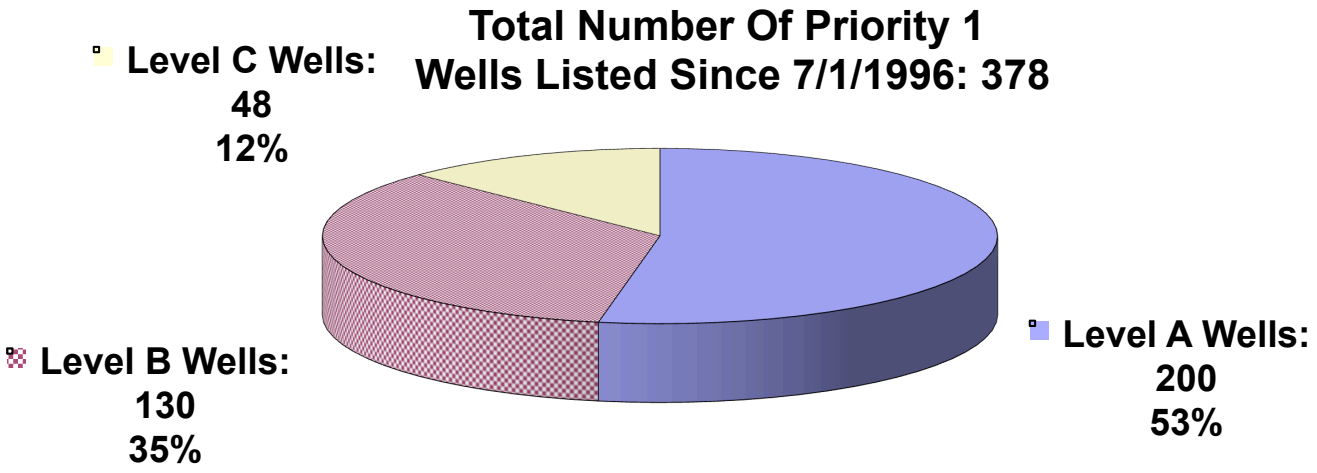
# District 2

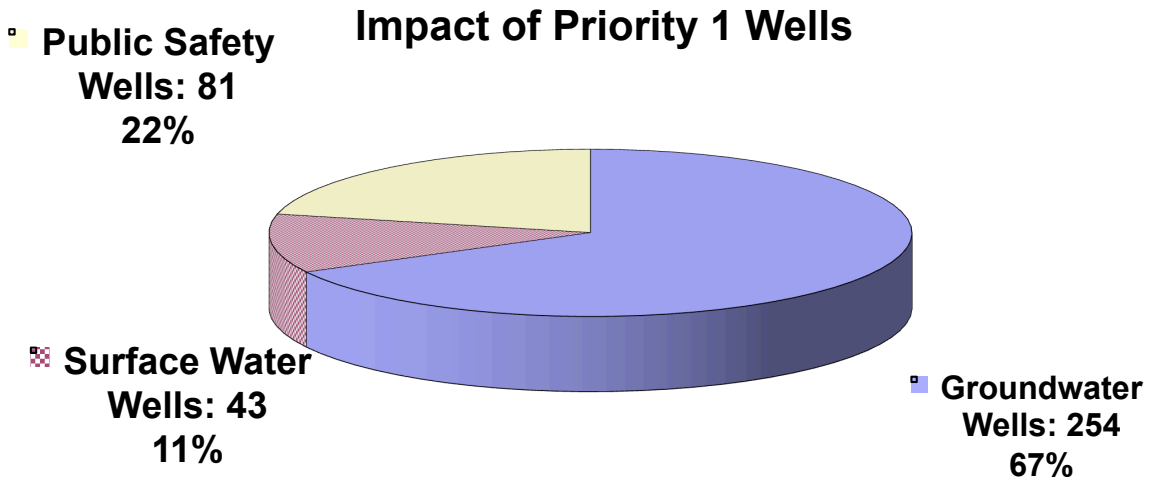
**Loc. of Field Office:** Wichita

**Staffing Level:** 1 Supervisor, 2 Environmental Geologists, 6 Field staff, 2 unclassified Horizontal Drilling Field staff and 1 Support staff.

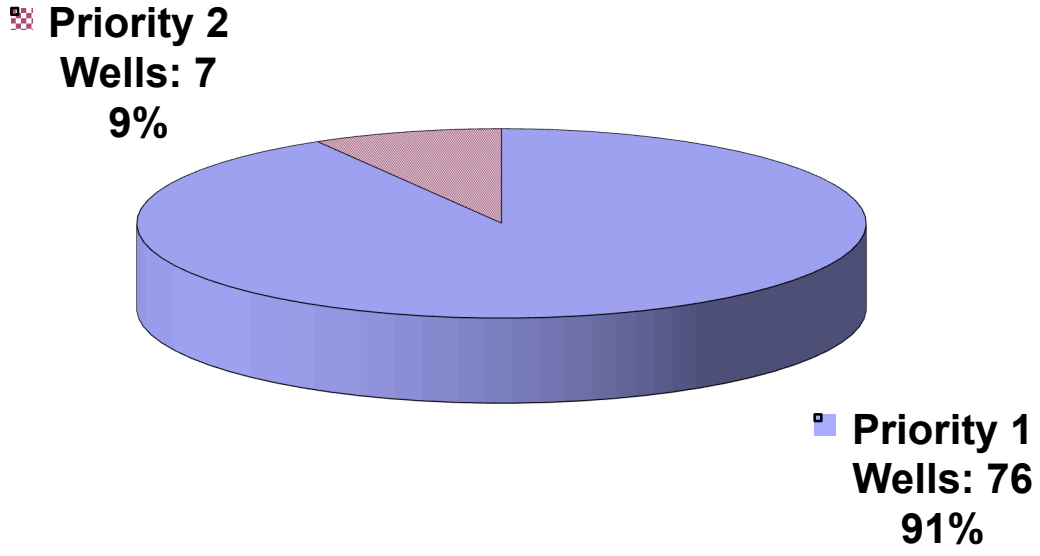
**Description:** The field area under the control of the District II office includes 27 counties in the central part of the state. Of the 27 counties in the district 20 are or have been productive of oil and gas. Groundwater (eg. Equus Beds) supplies to large metropolitan areas within the district have received some negative impacts from oil and gas operations. In general the production on the eastern side of the District is shallower and older in vintage. Operations are generally concentrated south of Interstate 70, with small to moderate sized independent operators being the rule rather than the exception.

**Inventory Status:** Wells identified to date represent approximately 229% of the original 165 Priority **I** wells estimated for this district.

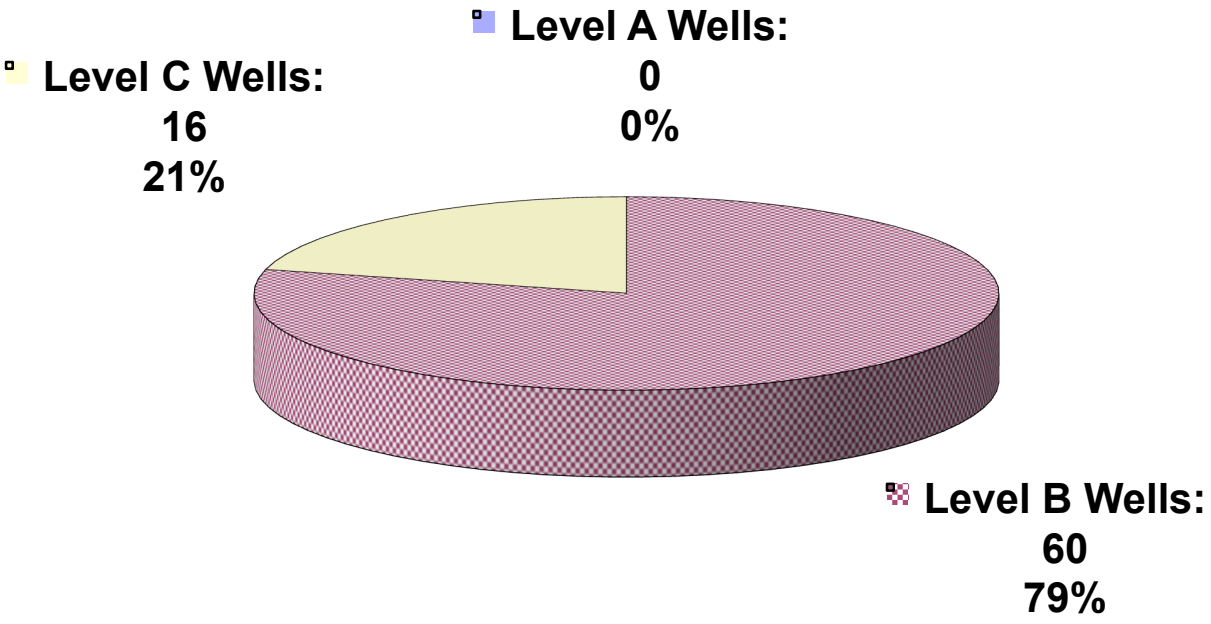




## DISTRICT 2
## NUMBER OF ABANDONED WELLS REQUIRING ACTION: 83



## POLLUTION LEVEL OF THE 76 PRIORITY 1 WELLS



# District 3

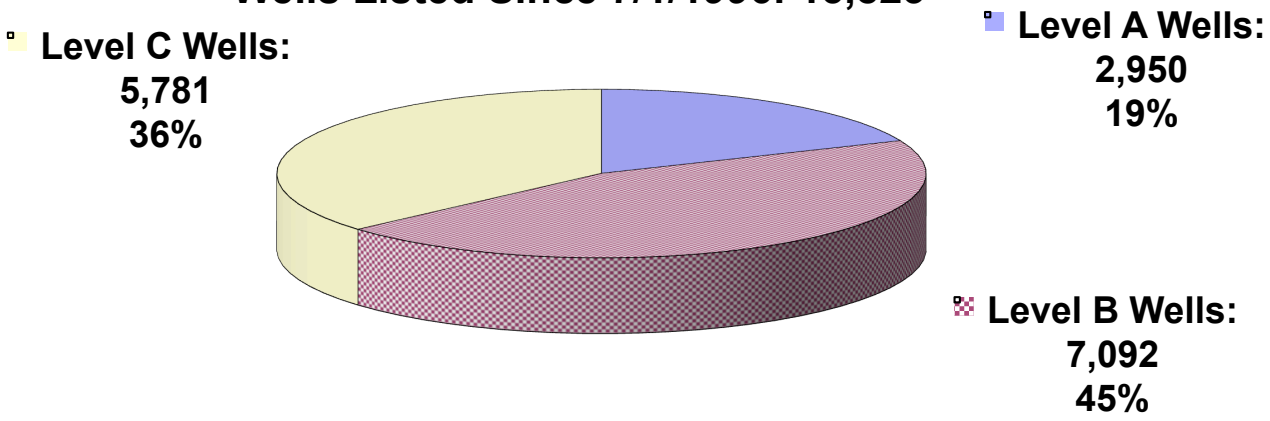
**Loc. of Field Office:** Chanute

**Staffing Level:** 1 Supervisor, 1 Environmental Geologist, 9 Field staff, 1 unclassified Horizontal Drilling Field staff and 2 Support staff.

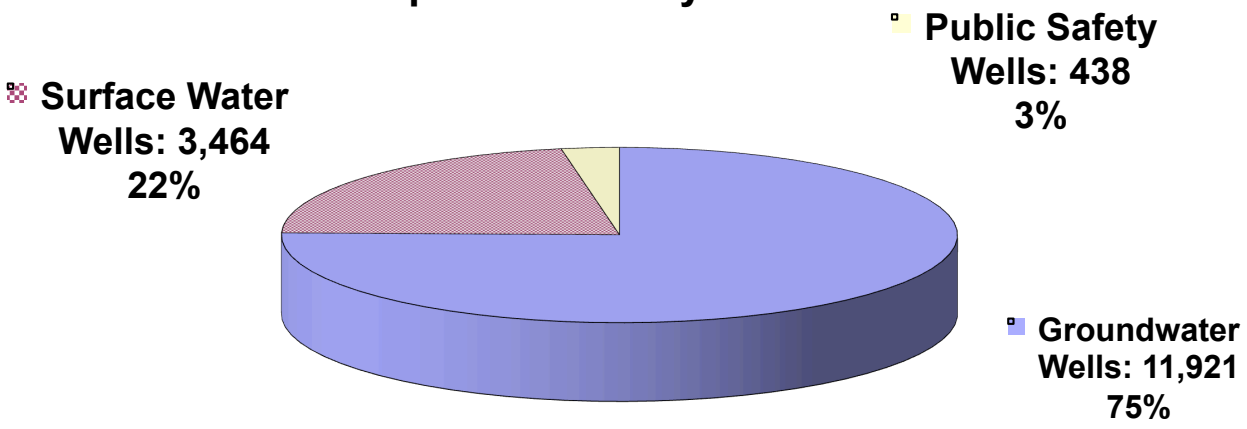
**Description:** The field area assigned to the District III field office encompasses a total of 32 counties in the eastern portion of the state. Oil and gas production has been established in all but four counties within the boundaries of the district. In general the production in this district comes from low volume wells producing from shallow depths. The district has the highest concentration of injection and/or disposal wells of any of the field districts. Drinking water resources are mostly from surface water and local aquifers. Small to moderate sized independent producers operate the majority of the active leases.

**Inventory Status:** Wells identified to date represent approximately 120% of the original 13,182 Priority **I** wells estimated for this district. It is estimated that the number of wells with public safety and surface water concerns or impacts will increase within this district as the inventory proceeds.

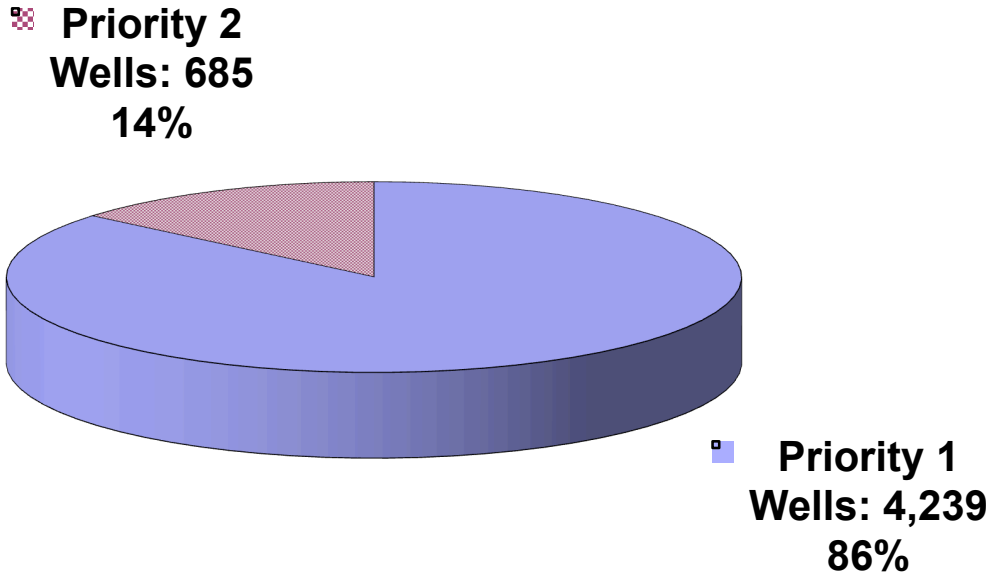
## Total Number of Priority 1 Wells Listed Since 7/1/1996: 15,823



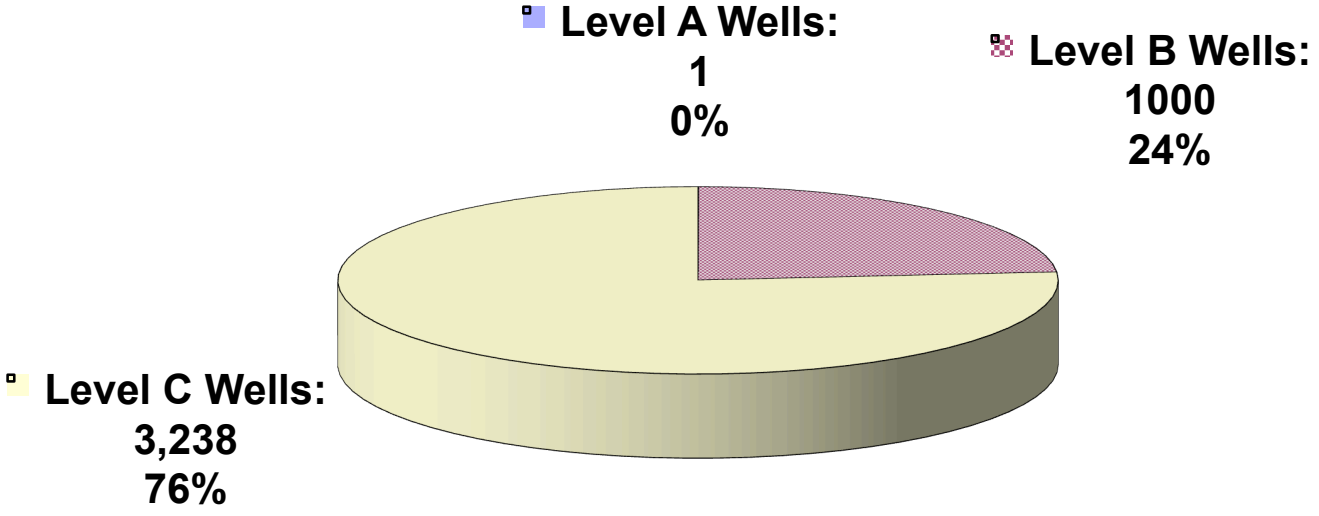
## Impact of Priority 1 Wells



## DISTRICT 3
## NUMBER OF ABANDONED WELLS REQUIRING ACTION: 4,924



## POLLUTION LEVEL OF THE 4,239 PRIORITY 1 WELLS



# District 4

**Loc. of Field Office**: Hays

**Staffing Level:** 1 Supervisor, 1 Environmental Geologist, 9 Field staff, 1 unclassified Horizontal Drilling Field staff and 1 Support staff.

**Description:** The field area assigned to the District IV field office includes 19 northwestern counties, 18 of which are or have been productive of oil and gas. As with most of the productive area in the state, the productive area in the eastern portion of this district is of the oldest vintage. Protection of both shallow and intermediate groundwater aquifers (eg. Ogallala and Dakota) is of critical importance to this area. These water resources are the primary sources of drinking and irrigation water.

**Inventory Status:** Wells identified to date represent approximately 54% of the original 1,242 Priority **I** wells estimated for this district.

## Total Number of Priority 1 Wells Listed Since 7/1/1996: 669
