

**Charles Newcomb**  
**Entegri Wind Systems**

Charles Newcomb joined EWSI in 2006.

Prior to EWSI, Charles served as Senior Engineer at the National Renewable Energy Laboratory's National Wind Technology Center.

Charles' work at the NWTC between 1997 and 2006 focused on developing and testing small and distributed wind turbine applications for developing countries, performance, loads, and duration testing of small and distributed wind turbines.

He also provided technical and program support to the U.S. Department of Energy Headquarters, United States Agency for International Development, USDA Rural Development, Environmental Protection Agency and other public agencies.

Charles served as the DOE's first technical liaison to the USDA Rural Development program staff for the development of the Renewable Energy and Energy Efficiency Improvement program between 2003 and 2006.

Charles holds a B.A from Oberlin College and a Master of Science in Agricultural Engineering from Colorado State University.
