

Tim Wilson
Empire District Electric Co.

Tim Wilson is a Planning and Operations Analyst in Strategic Projects, a position he has held since October 2004.

Tim has been with Empire for over 10 years. He started his professional career in Planning and Regulatory where he was responsible for the company's Fuel and Purchased Power budget. He then moved to Energy Supply as an Energy Trader where he bought and sold power and natural gas. Tim's current responsibilities include sponsoring testimony in regulatory proceedings, developing and tracking the company's major capital investments and the sales and tracking of all Renewable Energy Certificates the company generates from its purchased power agreements. He was also the company's representative in contract negotiations with Horizon on the Meridian Way Windfarm.

Tim and his wife of 11 years have three girls, Regan, Ryann and Rachel.
