The Honorable Susan Wagle  
President of the Senate  
State Capitol - Room 371-E  
Topeka, KS 66612

RE: Annual Report to the 2013 Legislature

Dear Senator Wagle:

Greetings! We would like to take a moment and introduce our 2013 Utilities and Common Carriers Annual Report. The Kansas Corporation Commission (Commission or KCC) is transforming to meet changing market complexities. The report is submitted pursuant to the provisions of K.S.A. 66-117b. We hope that you will find the information to be organized and delivered in a concise manner.

The statute requires the Commission to monitor and report annually to the legislature any changed rate, joint rate, toll, charge or classification or schedule of charges, or any rule or regulation or practices pertaining to service or rates approved by the Commission in the preceding fiscal year for a public utility or common carrier that had \$10 million or more in annual operating revenues in the previous calendar year.

The report covers action taken by the KCC for the fiscal year beginning July 1, 2011, through June 30, 2012. This report includes information on Commission actions regarding utilities with less than \$10 million in annual operating revenues. Within each industry, information is provided separately for both categories including "large" companies with more than \$10 million in revenues and "small" companies with less than \$10 million in revenues.

The report is also available on our website at [www.kcc.ks.gov](http://www.kcc.ks.gov). If you have questions regarding this report, please contact Jesse Borjon, Director of Public Affairs and Consumer Protection, at 785.271.3269 or [j.borjon@kcc.ks.gov](mailto:j.borjon@kcc.ks.gov), or me at 785.271.3166 or [p.petersen-klein@kcc.ks.gov](mailto:p.petersen-klein@kcc.ks.gov).

Sincerely,

Patti Petersen-Klein  
Executive Director

Jesse Borjon  
Director of Public Affairs  
and Consumer Protection

# UTILITIES AND COMMON CARRIERS

ANNUAL REPORT | 2013

The economic, legal, and managerial missions of the Kansas Corporation Commission (KCC) are to protect the public interest through impartial, efficient, and transparent resolution of all jurisdictional issues; and by participating in other forums and tribunals where articulated state policy objectives are at issue. The agency shall: regulate rates, services and safety of public utilities, common carriers, and motor carriers; regulate oil and gas production by protecting correlative rights, environmental resources, and energy storage; and promote energy-related programs.

# About the KCC

The Kansas Corporation Commission (KCC) regulates five cornerstone industries in the Kansas economy. The Commission has the responsibility of ensuring that natural gas, electricity, telephone, and transportation vendors provide safe, adequate, and reliable services at reasonable rates. The Commission also has the mandate of assuring that oil and gas producers protect correlative rights and environmental resources. The authority of the Kansas Corporation Commission is derived from KSA 74-601 to 74-631.

The KCC does not regulate most electric cooperatives, water cooperatives, municipalities, wireless telephone, long distance service, cable companies, or the internet.

The Commission has recently taken steps to change the managerial structure of the agency to one where the Commissioners function like a board of directors and day-to-day management of the agency is vested in the Executive Director who functions like a Chief Executive Officer. The three-member Commission is appointed by the Governor with the approval of the Senate. Members serve staggered four-year terms. Law provides that no more than two of the three commissioners may belong to the same political party. Commissioners elect one of their colleagues as Chair. The work of the Commission is supported by the Division of Administration, Public Affairs and Consumer Protection, Utilities, Conservation, Transportation, and Energy.

The KCC was originally established in 1883 to regulate railroad activity. The KCC was one of the first state regulatory bodies in the nation. In 1911, the Kansas Legislature created a three member Public Utilities Commission to regulate telegraph and telephone companies, pipeline companies, common carriers, water, electric, gas, and all power companies with the exception of those owned by municipalities.

The present regulatory body, the KCC, was established by the Legislature in 1933. Over the years, its jurisdiction was extended to include motor carriers, gas conservation, and supervision of plugging abandoned wells to protect fresh and useable water from pollution.

# KCC Leadership

## Mark Sievers

### Chairman

Appointed May 5, 2011

Appointed by Governor Sam Brownback

Term expires March 15, 2015

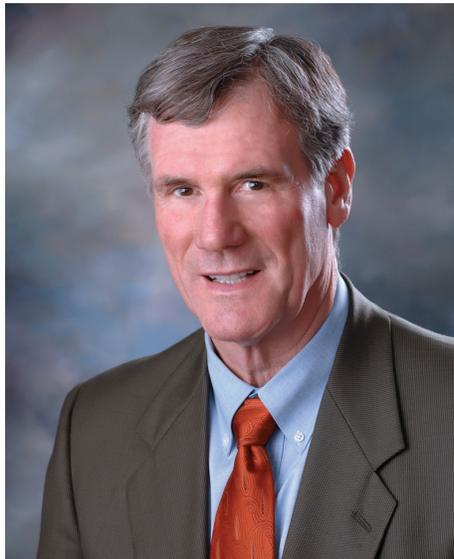

Chairman Mark Sievers was appointed by Governor Sam Brownback on May 5, 2011, to the Kansas Corporation Commission. He was elected Chair of the three-member Commission on May 17, 2011.

Chairman Sievers is an experienced senior executive, an economist, and a lawyer experienced in policy development, economic policy analysis, and complex public utility litigation. He worked for Verizon Global Solutions where he was responsible for its international legal and regulatory matters. Prior to joining Verizon he held senior positions at GTE, Sprint, and Southwestern Bell, where he participated in regulatory proceedings throughout the United States and worked on complex corporate transactions. He was a lawyer in private practice in Washington, D.C., where he represented several start-up telecommunications firms.

He has also worked for the Utah Attorney General and the California Department of Water Resources. Prior to attending graduate school and law school, he was a police officer for the City of Colorado Springs.

He holds a BA in economics from the University of Colorado, an MA and ABD in economics from the University of California, Davis, and a JD from the University of Utah. He is admitted to practice law in Colorado, Missouri, the District of Columbia, and the 10th U.S. District Court. He is a graduate of the Leadership Program of the Rockies.

Chairman Sievers' wife of 36 years, Jill, is a lawyer and the Executive Director of Habitat for Humanity in Woodland Park, Colorado.

**Tom Wright**  
**Commissioner**

Appointed May 23, 2007 / January 8, 2010

Appointed by Governor Kathleen Sebelius /  
Governor Mark Parkinson

Term expires March 15, 2014

Commissioner Tom Wright served as Chair of the Governor’s Gaming Committee and of the Consolidation Commission of Topeka-Shawnee County in 2005. He was Chair of the Washburn Board of Regents from 1986 to 1988, beginning as a Board Member in 1982. Throughout his career, he has taught classes at Washburn University Law School and in the NITA program at Loyola Law School in Chicago. He has recently been named to the National Association of Regulatory Utility Commissioners (NARUC) Committee on International Relations and Committee on Electricity.

He additionally serves as the Kansas delegate to the Eastern Interconnection States Planning Council and the Southwest Power Pool.

Commissioner Wright was elected President of the Kansas Bar Association (KBA) beginning June of 2008. He was a member of the Board of Governors for the KBA from 1998 to 2005. He served on the KBA Committee on Prevention of Legal Malpractice and chaired the Legislative Committee. He was on the

Civil Justice Reform Advisory Group of the Federal Court from 1992 to 1998 and the Federal Bench/Bar Committee from 1990 to 1998. Wright also served on the Kansas Supreme Court Nominating Committee from 1995 to 2003.

Commissioner Wright, originally from Harper, Kansas, earned a degree in mathematics from Wichita State University in 1961. He graduated from Washburn University School of Law in 1964 and earned a Bachelor of Arts degree in German from Washburn University in 1979.

Commissioner Wright and his wife, Carole, have two grown children and five grandchildren. They reside in Topeka.

**Shari Feist Albrecht**  
**Commissioner**

Appointed June 25, 2012

Appointed by Governor Sam Brownback

Term expires March 15, 2016

Prior to joining the KCC, Commissioner Albrecht served in various capacities at the Kansas Department of Health and Environment (KDHE) from 1993 to 2012. She most recently served as Associate Chief Counsel, and in that capacity, supervised the Environmental Practice Group. Albrecht also presided at environmental hearings conducted under the Kansas Administrative Procedure Act. Environmental cases heard included air quality, water quality, solid and hazardous waste, and surface mining.

From 2003 to 2011, Albrecht served in a policy research support role for KDHE's Division of Environment developing legislative and regulatory proposals to implement environmental policies related to air quality and radiation control, and for the Kansas Commissioner to the Central Interstate Low-Level Radioactive Waste Commission (CIC). In 2008, she was appointed CIC Commissioner for Kansas and was recently reappointed to this post in 2011.

At the KCC, Albrecht served as Director of the Oil and Gas Conservation Division from 1987 to 1991, managing the Wichita headquarters office and

four district field offices. In this capacity, she chaired numerous committees, including the Oil and Gas Advisory Committee. Albrecht also served as Deputy Director, Oil and Gas Conservation Division; Acting General Counsel, Assistant General Counsel, and staff attorney for the Transportation Division.

Albrecht, born in Lawrence, Kansas and raised in Hays, Tribune, and Sharon Springs, earned a Bachelor of Arts degree in Spanish Literature from the University of Kansas in 1982. She graduated from Washburn University School of Law in 1984 and is admitted to practice law in Kansas, U.S. District Court for Kansas, and the U.S. Supreme Court.

Albrecht and her husband, Martin, have two college-aged daughters. They reside in Topeka. In the community, Albrecht is active at Faith Lutheran Church, has served on many boards and task forces, and was a Troop Leader for Kaw Valley Girl Scout Council Troop 173.

**Patti Petersen-Klein**  
**Executive Director**

Patti Petersen-Klein serves as the Executive Director of the Kansas Corporation Commission. In this role, she manages all aspects of the agency's operations including its Utilities, Conservation, Transportation, and Energy Divisions. Ms. Klein serves as a board member on the Executive Management Subcommittee of the National Association of Regulatory Utility Commissioners (NARUC). Previously, she served as the Commission's Advisory Counsel, representing it on regulatory matters in various state and federal tribunals.

Ms. Klein previously served as the President of the Administrative Law Section of the Kansas Bar Association (KBA) and since 2009 has authored that chapter of the KBA's Annual Survey. She has held several leadership positions for non-profit and legal associations.

Ms. Klein's career includes eleven years in the private sector with money-center banks, managing large-scale problem loans. Before joining the Commission, she clerked for the Chief Justice of the Kansas Supreme Court.

Ms. Klein holds a BBA from Wisconsin, MBA from Arizona State University, and JD from Washburn University School of Law.

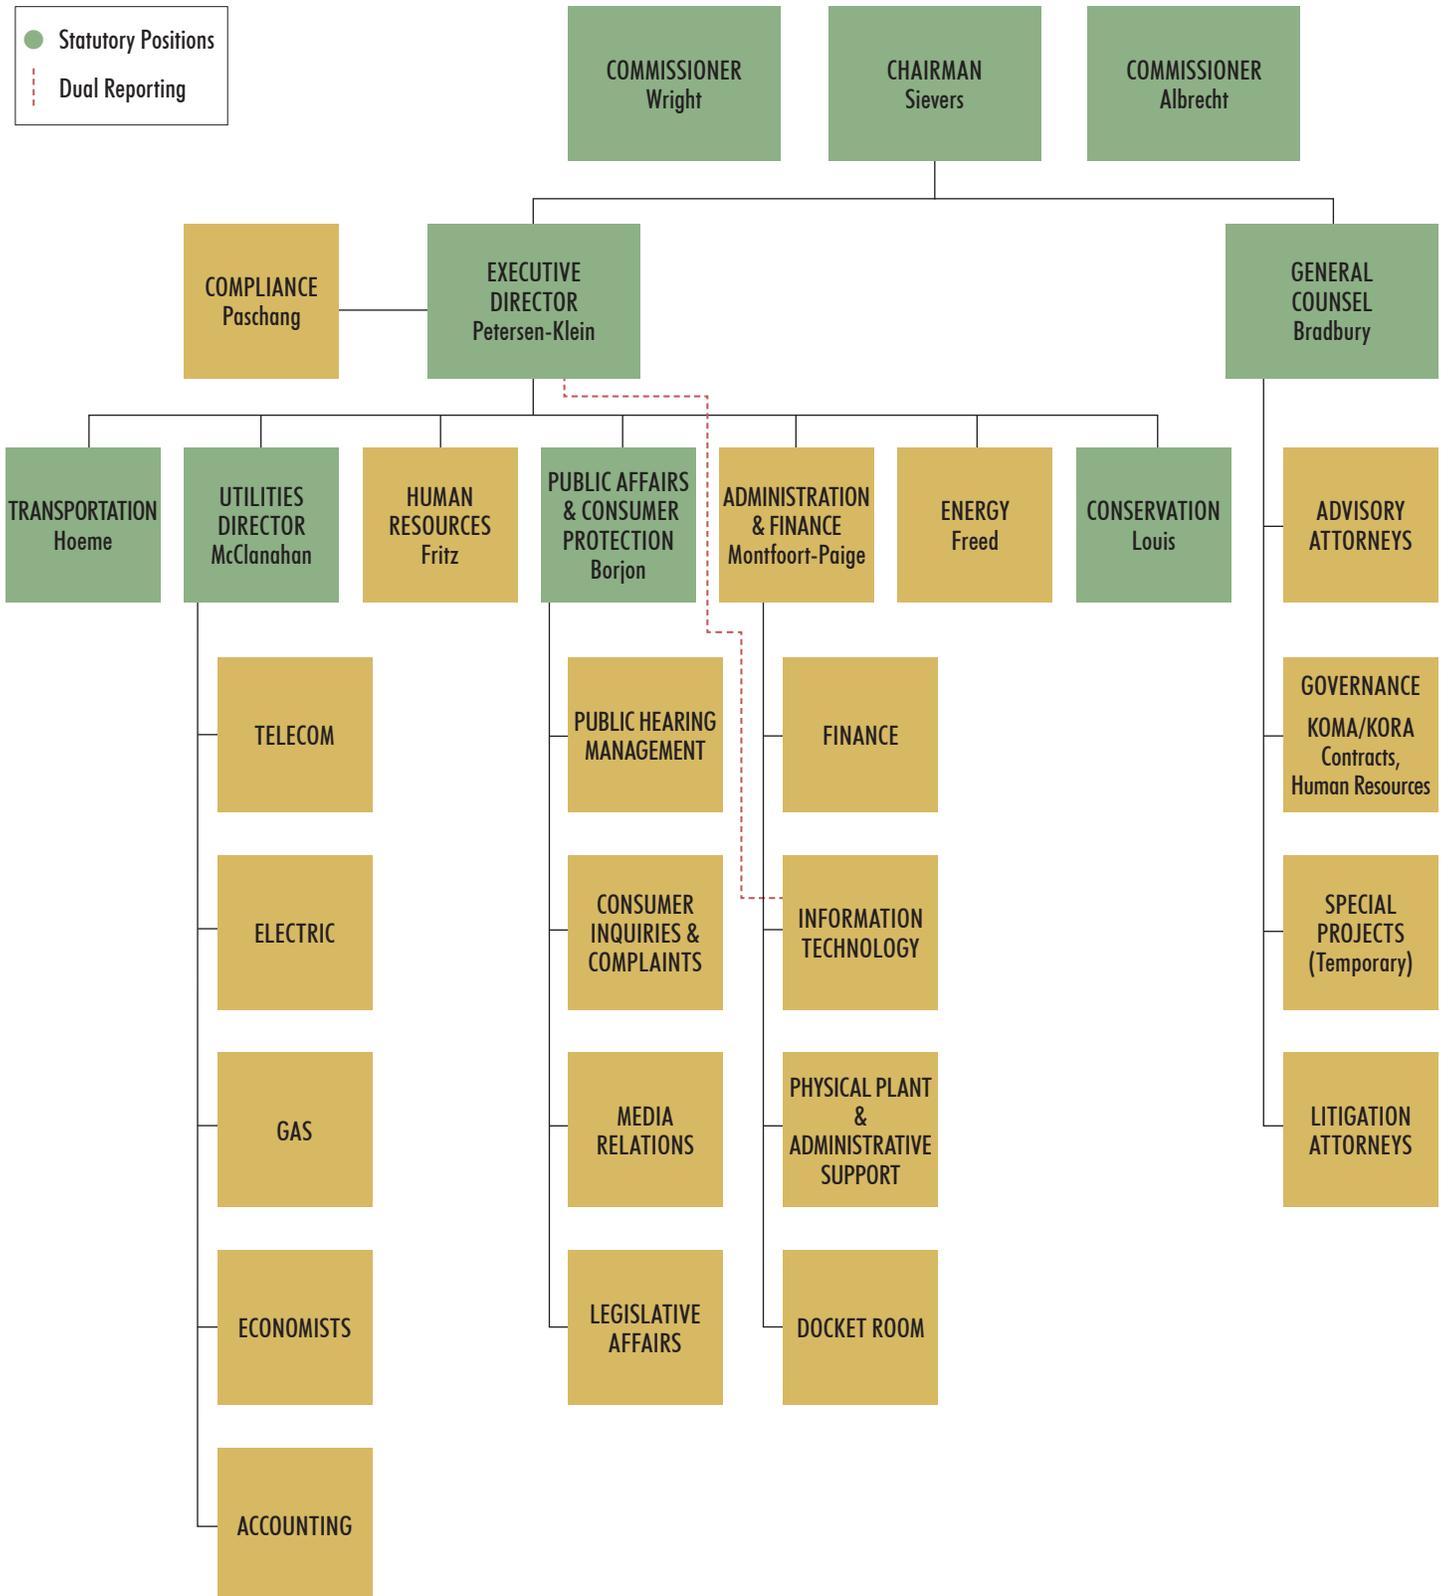

**Dana Bradbury**  
**General Counsel**

Dana Bradbury serves as the General Counsel of the Kansas Corporation Commission. In this role, she is the legal advisor for the Commission as an agency. She is head of the Legal Division and supervises the Litigation Counsel, Advisory Counsel, and legal staff in the Conservation Division. Ms. Bradbury supervises or coordinates the legal representation at the Federal Energy Regulatory Commission (FERC) and the Federal Communications Commission (FCC). She also serves as the Commission's representative at meetings of state agency general counsels.

Prior to General Counsel, Ms. Bradbury served as an Assistant General Counsel on electric and natural gas cases. She graduated Magna Cum Laude from Washburn University School of Law in 1983.

# KCC Functional Structure

Organization and staffing are determined by the Executive Director and managers, driven by workflow and benchmarking.

# Utilities Overview

The Utilities Division is responsible for administering the laws and regulations applicable to jurisdictional electric, natural gas, telephone, and water utilities. The Utilities Division staff is comprised of five sections that are responsible for providing recommendations and advice to the Commission to promote and assure sufficient, efficient, and safe utility services at reasonable and non-discriminatory rates to consumers.

The five sections within the Utilities Division are Accounting, Economics and Rates, Energy Operations, Pipeline Safety, and Telecommunications. These sections are responsible for the following:

1. The Accounting section is responsible for investigating, analyzing and making recommendations to the Commission on accounting and financial issues relating to the electric, natural gas, telecommunication, and water industries.
2. The Economic Policy and Rates section is responsible for investigating and making recommendations on economic issues relating to the natural gas, electric, and telecommunications industries to the Commission as well as the Kansas Legislature and other State Agencies. In rate cases, this section is also responsible for evaluating the cost of service and developing a rate design.
3. The Energy Operations section provides technical expertise relating

to electric utility operation, reliability, safety, electric transmission siting, and electric and gas consumer service as well as analyzing requested changes to natural gas and electric certificates.

4. The Natural Gas Pipeline Safety section has primary responsibility to ensure safe operation of all gas utilities through enforcement of federal and state regulations.

5. The Telecommunications section is responsible for researching, investigating, analyzing, and making recommendations on courses of action for all telecommunications matters that come before the Commission.

## Major Issues for FY 2012

### EPA

- The Executive Director initiated an internal EPA Work Group led by the Director of Utilities. The primary roles of the EPA Work Group are to (1) support the Kansas Department of Health and Environment (KDHE) in its lead role in monitoring and implementing EPA rules, (2) communicate with stakeholders, and (3) evaluate the impact of EPA issues on jurisdictional utilities. The EPA Work Group is primarily made up of a cross-section of Commission Divisions that consists of representatives from the Utilities, Legal, and Conservation divisions. Staff has also hired legal

counsel in Washington D.C. to monitor and inform the EPA Work Group of pending EPA actions regarding new or existing environmental rules. In addition, the EPA Work Group meets regularly with KDHE to determine whether the KCC can provide any meaningful assistance to KDHE when it files comment letters with the EPA. To assist in accomplishing the EPA Work Group's defined goals, the Commission opened a general investigation (Docket No. 13-GIMX-150-GIV) into the impact of environmental regulatory developments on jurisdictional utilities and licensed oil and gas operators.

### SIGNIFICANT INCREASES IN CAPITAL INVESTMENT

- As a result of new environmental rules and regulations, electric utilities continue to manage large-scale environmental retrofit projects on coal-fired generation assets. In addition, the Southwest Power Pool continues to approve new transmission facilities to enhance reliability of the transmission system. Both the new environmental retrofits and new transmission assets are extremely capital intensive and will continue to place upward pressure on utility rates.
- Telecommunications companies are continuing to invest in new technologies, primarily to enhance broadband services. These investments, along with changes in the Federal Universal Service Fund,

will most likely increase the size of the Kansas Universal Service Fund.

### **MISSISSIPPIAN LIME PLAY – POWER TO DRILL SITE**

• The KCC participates in an Inter-Agency Work Group (IAWG) led by the Department of Commerce. The group's purpose is to plan for and aid the stakeholders in the Mississippian Lime Play and address the myriad of infrastructure issues that arise in a major oil boom. In order to address electric power to the drill site issues, the KCC initiated meetings with a number of oil companies, the Kansas Independent Oil and Gas Association (KIOGA), and electric utilities to help define and address the generation, transmission, and distribution issues that may require new electrical infrastructure. Significant work effort in this area will continue during FY 2013.

### **EMERGENCY MANAGEMENT PLAN FOR NATURAL GAS AND ELECTRIC UTILITIES**

• K.S.A. 74-616 and 74-620 require the KCC to adopt rules and regulations that provide an emergency management plan for natural gas and electric energy to be used during activation of Emergency Support Function 12 (ESF 12). The KCC completed and adopted this emergency plan during FY 2012. The KCC also assumed from the Kansas Department of Emergency Management, on a test basis, the overall responsibility for coordinating emergencies under ESF 12.

## **Electric**

### **OVERVIEW**

The KCC regulates nine large (annual operating revenue greater than \$10 million) electric utilities. A list of the large electric utilities and a brief overview of the major activities for FY 2012 are noted below. A summary of each major docket associated with the companies follow this narrative section along with a listing of all other electric dockets. In addition, included in this narrative section is a discussion of the Federal, transmission, and wind issues that the

Utilities Division Staff spent a significant amount of time on during FY 2012.

### **LARGE ELECTRIC UTILITY COMPANIES**

*(Annual operating revenue greater than \$10M)*

#### **Empire District Electric Company**

#### **Kansas City Power & Light Company**

#### **Mid-Kansas Electric Company**

#### **Midwest Energy, Inc.**

#### **Sunflower Electric Power Corporation** (Transmission only)

#### **Westar Energy Inc.**

#### **Wheatland Electric**

#### **Prairie Wind Transmission, LLC**

#### **ITC Great Plains, LLC** (Transmission)

Five major electric utility companies filed applications to increase rates during Fiscal Year 2012, including the two largest electric utilities in the State, Westar Energy and Kansas City Power and Light Company. In addition, Mid-Kansas Electric Company filed three separate rate cases to increase the rates for three separate divisions that each cover a different geographical portion of Mid-Kansas' service territory. In the case of Westar and KCP&L, these cases were largely driven by increasing costs of environmental compliance with State and Federal environmental regulations, renewable energy mandates, costs to expand transmission facilities, and costs associated with maintaining a qualified workforce. The Mid-Kansas cases were largely driven by normal operating cost increases since its last rate case in 2009, including costs to improve and strengthen Mid-Kansas' distribution assets in Western Kansas. In total these applications requested an increase of \$163.49 million in additional base rate revenue. To-date, the Commission has issued orders on four of the five cases authorized base rate increases of approximately \$89 million.

In addition, Mid-Kansas filed an application for a Transmission Formula Rate. This application sought the Commis-

sion's approval for a formula to determine annually the cost of Mid-Kansas' transmission facilities to be recovered through the Open Access Transmission Tariff at the Southwest Power Pool (SPP). This annual determination could be determined without the need for a rate case, and was necessary due to the increased demands being placed on Mid-Kansas to expand its transmission facilities through the reliability planning process in place at SPP.

### **FEDERAL ISSUES**

The KCC intervened in several matters before the Federal Energy Regulatory Commission (FERC).

#### **ER10-1697, ER11-2677, ER11-3494, and ER12-140**

The KCC successfully protested Kansas Power Pools assertion that certain transmission facilities were FERC jurisdictional, rather than KCC jurisdictional.

#### **RM11-26**

The KCC filed comments in a rule making docket to inform FERC that continued rate making incentives for new transmission projects were not required.

#### **ER12-1179**

In other electric matters the FERC approved Southwest Power Pool's proposed Integrated Market Place.

## **Southwest Power Pool**

### **OVERVIEW**

The Southwest Power Pool (SPP) is the Regional Transmission Organization (RTO) and Regional Entity (RE) that many Kansas utilities belong to and answer to respectively. Approximately one-half of the 64 members are comprised of investor-owned utilities, municipal systems, generation and transmission cooperatives, and state authorities who serve retail loads in parts of nine states (Arkansas, Kansas, Louisiana, Mississippi, Missouri, Nebraska, New Mexico, Oklahoma, and Texas). The balance of the Membership is comprised of independent power producers, power marketers, and independent

transmission companies. Several Kansas transmission-owning (TOs) utilities are members of the SPP. All Kansas transmission utilities are members of the North American Electric Reliability Corporation (NERC) and are required to follow NERC rules for reliability. SPP has over 550 employees and over 50 standing Working Groups, Committees, or Task Forces, most of which meet at least monthly. The KCC has one Commissioner and two employees (part-time assignment) who typically attend, or monitor by phone, five to ten selected meetings on a monthly basis.

KCC Staff interaction with the SPP is often as one of a number of stakeholders – along with utilities, other government agencies, marketers, etc. The SPP is regulated by FERC and NERC and the nature of the SPP is such that many of the organization’s activities are outside of the jurisdiction of the KCC. However, this does not mean that the KCC and the State do not have a vested interest in affecting the outcomes of those activities on behalf of electric ratepayers and regulated utilities. SPP is stakeholder driven; meaning that the organizational structure includes a number of stakeholder groups. These groups are made up of personnel from SPP member organizations and even some non-member organizations. In addition, the SPP organization includes a Regional State Committee (RSC). This is a policy-level group that is made up of state regulators. Under the by-laws of the SPP, one commissioner from each of the states is a member of the RSC. The RSC fulfills a largely advisory role in SPP and does not “approve” projects. While the RSC establishes the cost allocation methodology for committing retail ratepayer funds, the RSC has no “line” responsibility in approving the number or costs of specific projects approved for construction. Thus, the KCC has no direct oversight over the amount of spending for Kansas-specific or regional transmission projects, which makes it imperative that the Commission be represented in a liaison capacity at multiple SPP stakeholder committees and task forces.

## TRANSMISSION PLANNING AND CONSTRUCTION

In September 2006, the Commission granted the petitions of Kansas transmission owning utilities permission to transfer operational control of their transmission facilities to the SPP and the application of SPP for certification as a public utility. Since SPP became an RTO and achieved public utility status in Kansas, the SPP planning process has analyzed project recommendations from members and coordinated development of those projects with other new system upgrades identified by SPP staff. Since its inception as an RTO, the SPP Board of Directors has authorized the construction of \$ 6.8 billion (engineering and construction cost at the time of respective approvals) in new transmission projects with the cost to be regionally or zonally recovered from ratepayers inside the SPP Region. In addition, the present Integrated Transmission Plan Near Term (ITPNT) will recommend to the SPP Board of Directors (BOD) in January 2013 approval of approximately \$766 million in new projects. Under the present, long term 20-year Integrated Transmission Plan (2013 ITP20), SPP is studying 4 future scenarios that include 400 to 7,000 miles of new EHV lines at a cost of \$0.6 B to \$9.2 B, which will support the addition of 9 GW to 26 GW of wind. The 2013 ITP20 is expected to be approved at the July 2013, SPP BOD meeting.

The total annual transmission revenue requirement (ATRR) for transmission owning SPP members is presently \$1.1 billion (SPP Open Access Transmission Tariff “OATT”, Attachment H and Revenue Requirements and Rates (RRR) file, October 1, 2012). This represents annual capital cost recovery, operation and maintenance (O&M), and other transmission related expenses for projects that are in-service or construction cost incurred at the date of a FERC filing. These revenue requirements are recovered through FERC-approved transmission formula rates (TFR), or in some cases state

regulated TFRs. The ATRR for Kansas public utilities is approximately \$307 million (approximately 80% under FERC TFRs and 20% under KS TFRs). These numbers will increase significantly as less than half of the approved or soon-to-be-approved \$7.0 billion in costs have yet to be incurred.

The Commission approved a static transmission rate for the Kansas Power Pool at the end of June, followed by a fourth quarter approval of a TFR for Mid-Kansas Electric Company.

In the summer of 2010, the Commission approved a Stipulation & Agreement between ITC and Prairie Wind regarding the V-plan, a double circuit 345 kV transmission line project in Southwest Kansas. In the summer of 2011, the Commission approved line siting applications for ITC and Prairie Wind. The Commission continues to monitor the progress and financial status of these projects.

Clean Line Energy Partners LLC received Commission approval in December 2011 to conduct the business of a public utility in Kansas and continues to make progress on its Grain Belt Express Clean Line Project (Clean Line). The new line is a ±500 or ±600 kilo-volt (kV), high voltage direct current (HVDC) transmission line and associated facilities capable of delivering 3,500 megawatts (MW) of power from Kansas to load centers farther east. This project will originate in western Kansas near Sunflower’s Spearville substation, traverse east across the state (approximately 300 miles) into Missouri where it will interconnect with the AC grid at the St. Francois substation in southeastern Missouri, which is part of the MISO market. From there the line will continue into Indiana where it will interconnect with the PJM market. The Project has been estimated to cost \$1.7 billion with an in-service date of 2016. The Commission expects Clean Line to file a line siting application sometime in the first half of 2013. It is anticipated that this project would be funded through the sales of transmission capac-

ity to wholesale customers (referred to as merchant transmission) and therefore will not be funded by Kansas retail rate-payers. No other lines in SPP are funded in this manner.

ITC recently completed and energized the KETA project. ITC has now teamed with Mid-Kansas Electric Company and will split with Westar the development of a 345 kV line from Westar's Summit substation near Salina, Kansas, to ITC's Elm Creek substation near the Cloud County wind farm. The Commission expects the companies to file line siting applications for this 52 mile project in the 2nd quarter of 2013.

The Commission Staff continues to monitor the effects of FERC Order 1000, which was issued in July 2011. This landmark Order affects the transmission planning process as it requires RTO's to: 1) coordinate and share information in a transparent manner with neighboring RTO's; 2) establish cooperative procedures by which interregional projects might be addressed; and 3) develop a cost allocation methodology for those interregional projects.

#### **WIND GENERATION AND THE RENEWABLE PORTFOLIO/ENERGY STANDARD (RPS/RES)**

In May 2009, the Kansas Legislature passed the Renewable Energy Standards Act (RES) [K.S.A. 66-1256 through 66-1262]. The RES requires all non-municipal utilities in Kansas to satisfy a portion of their generation needs through renewable generation sources. Unlike most other states whose renewable portfolio standard requirements are set in terms of energy, the RES requires affected utilities to have renewable energy capacity that is equal to 10% of the utility's average prior three year annual peak retail sales for the years 2011 through 2015. The RES requirements increase to 15% capacity for the years 2016 through 2019, and 20% capacity for all years after 2020. The renewable capacity can either be owned by the utility or obtained through a purchase power agreement. Nearly all of the

required renewable capacity is expected to be wind generation.

K.S.A. 66-1258 also stipulated that the KCC would establish rules and regulations governing specifics of the RES not covered within the statutes. In October 2010, the KCC finalized K.A.R. 82-16-1 through 82-16-6, establishing these rules and regulations. Under KAR 82-16-2(b)(8), each utility is required to submit a report to the Commission detailing compliance with the portfolio standards established in KSA 66-1258 and containing, among other things, "the calculated percentage increase in the utility's revenue requirements and retail utility rates that would be caused by compliance with the acts' portfolio requirement for the year, as determined pursuant to K.A.R. 82-16-4."

During the last legislative session, Senate Substitute for HB 2526, which amends K.S.A. 66-1260, was passed in the last legislative session. Under HB 2526's new requirements, "The commission shall annually determine the annual statewide retail rate impact resulting from affected utilities meeting the renewable portfolio requirement." The commission will establish how the calculation will be done and the commission will report "to the governor, the senate committee on utilities and the house committee on energy and utilities" every March 1st. The rules and regulations for the RES Act explicitly describe how the retail revenue requirement impact of the RES is to be calculated. In order to calculate the retail rate impact, the only additional information needed is the volumetric sales data. Much of this data is considered confidential, but the commission can aggregate the filings and provide the rate impact on a statewide basis for the March 1st report.

For 2012 and projected 2013, KCP&L reported less than a 1% rate increase due to new wind generation at Spearville III and Cimarron II. Westar estimated a rate impact of 1.7% for purchase power agreements (PPAs) for wind generation.

Because KEPCo, Sunflower, Empire, and Midwest did not add any renewable sources, this particular reporting requirement was moot for those companies this year. These increases in rates are minimal and reflect the low cost advantage of Kansas electric generation.

The comparison of new wind generation to long-existing fossil fuel and nuclear generation, which has been significantly depreciated, places wind generation in the worst possible light. Two additional factors in evaluating Kansas wind generation should be considered: (1) new wind generation compares favorably with new fossil fuel and nuclear generation, and (2) existing coal generation is experiencing increasing cost pressures from environmental regulations, which could tip the balance in favor of wind generation in the near future.

## **Natural Gas**

### **OVERVIEW**

The KCC regulates five large (annual operating revenue greater than \$10 million) electric utilities. A list of the large electric utilities and a brief overview of the major activities for FY 2012 are noted below. A summary of each major docket associated with the companies follow this narrative section along with a listing of all other natural gas dockets. In addition, included in this narrative section is a discussion of the Federal issues that the Utilities Division Staff spent a significant amount of time on during FY 2012.

### **LARGE GAS UTILITY COMPANIES**

#### **Anadarko Natural Gas Company**

#### **ATMOS Energy Corporation**

#### **Black Hills/Kansas Gas Utility Co.**

#### **Kansas Gas Service, a Division of ONEOK, Inc.**

#### **Midwest Energy, Inc.**

The two largest natural gas distribution utilities in the State filed applications to increase rates during the fiscal year – Kansas Gas Service and Atmos Energy.

These applications were filed to reflect general increases in the cost of doing business as a gas utility in Kansas, including salary and wage increases, safety and reliability expenditures, materials and supplies cost increases. In addition, natural gas utilities continue to experience declines in per capita consumption of natural gas, leading to the need to file more frequent rate cases. Combined these two rate applications sought an increase in base rate revenue of approximately \$60 million. The Commission authorized a base rate revenue increase of approximately \$30.8 million for these rate applications.

Kansas Gas Service filed an application seeking approval of an Infrastructure Replacement Surcharge to allow it to recover, on an expedited basis, the costs of an anticipated cast iron pipeline replacement program. The surcharge was modeled closely after the existing surcharge mechanism allowed under K.S.A. 66-2202 through 66-2204. After a full investigation and hearing, the Commission denied KGS's application for a new surcharge instead suggesting KGS use existing statutory mechanisms. This case is discussed further in the Natural Gas Pipeline Safety section.

## FEDERAL ISSUES

The Commission staff monitors the rate activities of several interstate pipelines that serve Kansas local distribution companies and towns. Chief among these is Southern Star Central, which transports 50%–70% of all natural gas consumed in Kansas.

During FY 2012, the KCC intervened in three Southern Star dockets, all of which related to increasing the boundaries of natural gas storage fields that Southern Star operates. In dockets CP11-481, CP12-285, and CP12-475, Southern Star requested to increase the boundaries of the Alden, McLouth, and Welda storage fields. The KCC participated in all three dockets to insure that the new boundaries were accurately

located and to insure that no ground water resources were contaminated by migrating storage gas.

The KCC continues to monitor the activities of Northern Natural Gas in docket CP09-465, in which Northern Natural has requested an enlargement of its certificated storage boundaries at its Cunningham storage field in an attempt to contain migrating storage gas. Northern is required to make quarterly compliance filings regarding its efforts. The KCC receives and reviews these filings.

The KCC also intervened in the following dockets:

### CP11-534

The KCC intervened to insure that PostRock KPC's proposed abandonment of a capacity supply lease would not affect deliveries to retail customers.

### CP12-495

Kinder Morgan Interstate Pipeline is seeking to convert approximately 300 miles of its Pony Express natural gas pipeline to a liquid petroleum pipeline. The KCC's participation in this docket will insure that current customers of the gas pipeline will continue to receive adequate service following the conversion.

## Natural Gas Pipeline Safety

### OVERVIEW

With over 20,000 miles of natural gas piping and almost one million customers, the Commission's safety oversight of this utility sector is an important aspect of energy supply to Kansas. Pipeline safety personnel conduct on-site inspections of intrastate natural gas facilities to assure the safe construction, operation, and supply of natural gas. Focus for the past year has been placed on regulatory compliance reviews.

### PIPELINE SAFETY

Pipeline safety personnel continue to conduct on-site inspections of intrastate natural gas facilities. The inspections monitor the gas systems for any areas of

non-compliance with pipeline safety regulations. A typical audit will stress compliance with the operator's management of the integrity of the pipeline delivery system including such topics as review of emergency response plans, odorization requirements, cathodic protection, leak surveys, and operator qualification requirements. In addition, engineers and pipeline safety inspectors investigate any incident suspected of being caused by natural gas and report these to the Commission. Any recommendations of Staff regarding prevention of potential incidents are included in the report and considered by the Commission. Statistics that provide a snapshot of the pipeline safety personnel's inspection activity as well as an overview of the regulated gas infrastructure in Kansas can be found in the pipeline safety section of this report.

Pipeline safety personnel also investigate violations of the Underground Utilities Damage Prevention Act (KUUDPA). Investigators work with excavators and utility operators to assure compliance with provisions of the act such as requesting locates prior to digging, and locating facilities within 48 hours of being notified of pending excavation work. To enhance our KUUDPA enforcement efforts, KCC receives two federal grants that provide funding for two inspector positions for the calendar year. From July 1, 2011 to June 30, 2012, the Commission acted upon 10 filings in which fines were levied to excavators for failure to notify utilities prior to excavating over buried facilities. For the ten cases, a total of \$21,500 in fines was levied.

Kansas experienced four natural gas incidents in FY 2012 which resulted in one fatality, seven injuries requiring hospitalization, the destruction of three homes, and other property damage. Three of the four incidents were the result of excavator damage to pipelines. The specifics for those incidents are included in the KCC pipeline safety dockets listed below.

In 2012, the Kansas Supreme Court ruled on the case of Kansas One-Call System, Inc. v. State of Kansas and

handed down a decision which upheld the constitutionality of certain provisions of the Kansas Underground Utility Damage Prevention Act (KUUDPA). Although the Court clearly upheld the constitutionality of KUUDPA, the Court's analysis included with the decision noted its belief that the Notification Center, as defined in KUUDPA, is an entity separate and apart from Kansas One Call, the current operator of the center. In light of the Court's decision, a general investigation was opened into the operation of the Notification Center to allow the Commission to provide guidance in this matter to all interested parties. At this time, the investigation is ongoing. The specifics for this Docket are included in the KCC pipeline safety dockets listed below.

Aging infrastructure remains a top concern with Kansas natural gas operators. In 2006, the state legislature passed the Gas Safety Reliability Surcharge (GSRS) which allows for alternative recovery of investments for pipe replacement investments. This program has been very successful in accelerating the replacement of aging pipelines. In a 2012 tariff application, The Commission found that cast iron piping in natural gas service should be replaced as quickly as feasible. The Commission further directed the operator to file an annual report demonstrating the progress of the replacement program. The specifics for this Docket are included in the KCC pipeline safety dockets listed below.

## Liquid Pipeline Common Carriers

### OVERVIEW

Although there are relatively few intrastate pipeline common carriers in Kansas, the Commission is responsible for the economic regulation of this sector. The majority of Staff's work in this area is the review of tariff and rate filings in an effort to ensure efficiency and balanced benefit to Kansas common carriers and shippers. The large intrastate

liquid pipeline companies regulated by the KCC are noted below. A summary of each major docket associated with these companies follows this narrative section along with a listing of all other liquid pipeline dockets.

### LARGE LIQUID PIPELINE UTILITIES

#### Jayhawk Pipeline

#### NuStar Pipeline Operating Partnership, LP

#### Magellan Pipeline Company, LP

#### Mid-America Pipeline Company, a subsidiary of Enterprise Products Partners, LP

#### ONEOK NGL

#### ONEOK North Systems

#### Plains Pipeline, LP

A small number of intrastate pipeline common carriers exist within the State of Kansas subject to the KCC's regulation. The KCC Staff is responsible for the economic regulation, including but not limited to: processing tariff and rate filings, analyzing tariffs for compliance; monitoring complaints; processing and monitoring certificate filings due to sales, purchases, mergers and acquisitions, divestitures, service cessations and abandonment; and monitoring operations for unforeseeable events and capacity constraints. Additionally, Staff tracks all intrastate revenue reported from each pipeline company. Staff processed 22 intrastate pipeline common carrier dockets during FY 2012.

### FEDERAL (FERC) ISSUES

#### IS11-604

The KCC intervened in this docket in which Mid-America Pipeline purchased facilities in Kansas and set new rates on those facilities.

#### RM12-18

The KCC has filed comments in support of FERC's proposed rulemaking regarding increased reporting requirements for FERC Form 6.

## Telecommunications

### OVERVIEW

The KCC regulates four primary types of telecommunications carriers with varying degrees of regulation: Incumbent Local Exchange Carriers (ILECs); Electing Carriers; Competitive Local Exchange Carriers (CLECs); and Interexchange Carriers (IXCs) (also known as long distance carriers). These telecommunications carriers serve a customer base ranging from as few as 30 customers to over 500,000 customers. The large telecommunications carriers regulated by the KCC are noted below. A summary of each major docket associated with the telecommunications carriers follow this narrative section along with a listing of all other telecommunications dockets.

### LARGE TELECOMMUNICATIONS CARRIERS

#### AT&T Communications of the Southwest, Inc.

#### Blue Valley Tele-Communications, Inc.

#### Cox Kansas Telecom, LLC

#### MCI Communications Services, Inc.

#### Rural Telephone Service Co., Inc.

#### SBC Long Distance, Inc.

#### Southwestern Bell Telephone Company d/b/a AT&T Kansas

#### SureWest Kansas Licenses, LLC

#### Time Warner Cable Information Services, LLC

#### Twin Valley Telephone, Inc.

#### United Telephone Company of Kansas, Inc. d/b/a Century Link.

In addition to the 11 large telecommunications utilities listed above, the Commission has certificated 33 incumbent local exchange carriers (ILECs), 114 competitive local exchange carriers (CLECs), and 258 interexchange carriers (IXCs).

The KCC continues its effort in fulfilling its obligation to protect the rights and privileges of Kansas consumers in balance with the interests of the telecom-

munication carriers. The evolution of competition in providing local and long distance telecommunications has, in some instances, resulted in greater choice of available services at a variety of rates with a wider array of providers, packages and bundles from which to choose. Technology developments have also continued to play a key role in the evolution of the telecommunications industry.

The KCC Staff is responsible for the economic regulation, including but not limited to: processing tariff and rate filings; analyzing tariffs for compliance with KCC rules and regulations; resolving consumer and carrier complaints; processing certificate filings, service cessations, and name changes; reviewing carrier-to-carrier interconnection agreements and providing mediation when necessary; ensuring quality services; administering the Kansas Universal Service Fund (KUSF); auditing rate-of-return regulated ILECs; and processing eligible telecommunications carriers filings.

### **KANSAS UNIVERSAL SERVICE FUND**

The KUSF was established by the Commission in 1996, as required by the Kansas Telecommunications Act. The KUSF is in its sixteenth year of providing support to local telephone service providers to assist in making universal service available in high-cost areas of the state, to provide dual-party relay service and telecommunications equipment for persons with disabilities and to provide assistance to those with lower incomes through the Lifeline program. For the last several years, the KUSF has also provided funding for Kan-Ed. Effective March 1, 2012, the annual KUSF funding requirement is approximately \$65.2 million and the carrier assessment rate is 6.13%, a slight decrease from the March 1, 2011 to February 29, 2012 assessment rate of 6.18%. The KUSF provides approximately \$54.2 million in high-cost support, \$3.0 million for low-income subscribers, \$913,000 for telecommunications relay service, \$673,000 for the

telecommunications equipment program, \$3.75 million for Kan-Ed,<sup>1</sup> and \$456,000 for the fund administration and carrier audits. A third-party audit was recently completed covering the last three years and two different administrators.

The Commission began audits of all ILECs receiving KUSF support in 2000. All of the rural LECs have elected rate-of-return regulation; therefore, the audits provide an opportunity for the Commission to determine whether or not the KUSF support is cost-based for each rural LEC. Although some of the audits have resulted in increased funding for some of the rural LECs, the audits have collectively reduced KUSF funding annually by over \$4.2 million dollars.

### **FEDERAL ISSUES**

On March 16, 2010, the FCC delivered to Congress a National Broadband Plan (NBP) recommending that the FCC adopt cost-cutting measures for existing voice support and create a Connect America Fund (CAF), without increasing the overall size of the fund. The broad goal of the NBP is to support the provision of broadband communications in areas that would be unserved without such support or that depend on universal service support for the maintenance of existing broadband service. The FCC has initiated numerous proceedings aimed at implementing the NBP and intends to initiate many more in the next few years in order to attain the goals outlined in the NBP.

The FCC has issued multiple orders and has various proceedings underway to:

- Create the Connect America Fund (CAF) to support broadband;
- Convert the “legacy” high-cost component of the federal Universal Service Fund (USF) to the CAF;
- Create a Mobility Fund to support 3G (or better) wireless coverage;

- Expand the Lifeline (low-income) program to allow subsidies to be provided for broadband;

- Broaden the USF contribution base to ensure sustainability; and

- Transition intercarrier compensation to a bill-and-keep regime.

The KCC is implementing the FCC reforms and determining how the reforms will affect Kansas, Kansas carriers, and the KUSF. The KCC has a proceeding open to examine all of these issues.

## **Water**

### **OVERVIEW**

The Kansas Corporation Commission (KCC) regulates five water companies, none of which fall into the large utility category. These water companies serve a customer base ranging from as few as 60 to as many as 1500, with little to no potential of increasing their customer base. Customers served by these companies typically live in a suburban area approximately two to ten miles outside the city. The water supplied varies from city water supplied by a nearby town to ground water supplied by the company’s own water wells. The water companies regulated by the KCC are noted below. A summary of each major docket associated with the companies follows this narrative section along with a listing of all other water dockets.

### **WATER COMPANIES**

#### **Barton Hills Water District**

#### **Green Acres Mobile Home Park, LLC**

#### **Howison Heights, Inc.**

#### **Suburban Water, Inc.**

#### **Wheatland Water Plant, A Division of Wheatland Electric Cooperative, Inc.**

During FY 2012, Suburban Water filed a rate case requesting an increase in rates based on what it considered to be insufficient margins. Suburban also requested

<sup>1</sup> Funding for Kan-Ed was reduced from \$6 million to \$3.75 million as of July 1, 2012.

approval of an amendment to a contract to purchase water from the Kansas City Board of Public Utilities. Howison Heights also filed a rate case requesting an increase based on an assertion that current revenues did not cover existing operating expenses. The case was eventually withdrawn by Howison Heights so that it could renegotiate a bank loan and then attempt to sell the water company.

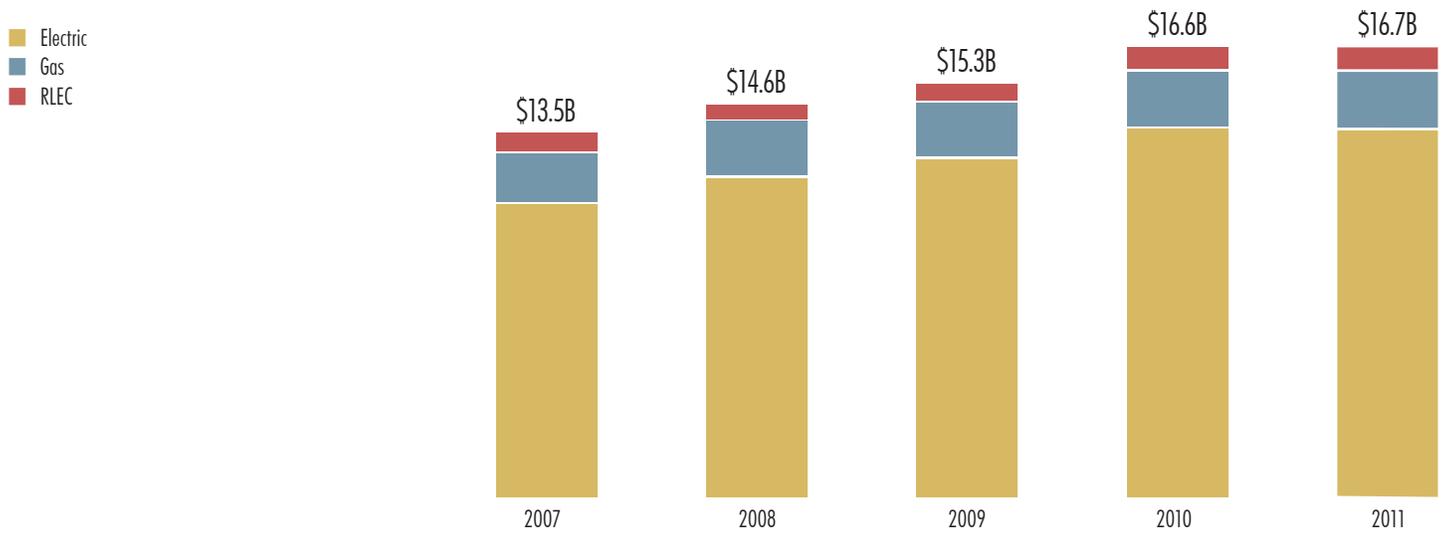

## Financial Information and Other Metrics

### OVERVIEW

The KCC sets rates for electric, natural gas, telecommunications, and water utilities on a rate base/rate of return basis for public or private utilities or a Times Interest Earned (TIER)/Debt Service Coverage Ratio (DSC) basis for cooperatives. For

the electric, natural gas, and rural local exchange companies, the amount of capital investment, fuel and purchased power expense, total revenues, and total expenses are measured in billions of dollars. Following this overview section, more details are provided regarding financial information and other metrics for all of the KCC jurisdictional utility industries on a consolidated and individual industry basis.

### GAS, ELECTRIC, AND RURAL LOCAL EXCHANGE COMPANIES TOTAL RATE BASE | 2007–2011

### GAS, ELECTRIC, AND RURAL LOCAL EXCHANGE COMPANIES TOTAL REVENUES AND EXPENSES | 2007–2011

**TOTAL COMMENTS BY DOCKET | FY 2012**

Ratepayers are given the opportunity to provide public comments on matters before the Commission.

DOCKET NUMBER	COMMENTS	DESCRIPTION
12-WSEE-112-RTS	1,367	In the Matter of the Joint Application of Westar Energy, Inc. and Kansas Gas and Electric Company for Approval to Make Certain Changes in Their Charges for Electric Service
10-KCPE-415-RTS	1,062	In the Matter of the Application of Kansas City Power & Light Company to Modify Its Tariffs to Continue the Implementation of Its Regulatory Plan.
12-ATMG-564-RTS	121	In the Matter of the Application of Atmos Energy for Adjustment of Its Natural Gas Rates in the State of Kansas.
11-GBEE-624-COC	104	In the Matter of the Application of Grain Belt Express Clean Line LLC for a Limited Certificate of Public Convenience to Transact the Business of Public Utility in the State of Kansas.
12-KCPE-764-RTS	17	In the Matter of the Application of Kansas City Power & Light Company to Make Certain Changes in Its Charges for Electric Service.
12-SUBW-359-RTS	8	In the Matter of the Application of Suburban Water, Inc., d/b/a Suburban Water Company, for Approval of the Commission to Make Certain Changes in its Rates for Water Service, for Approval of an Amendment to a Contract for Sale of Water with Board of Public Utilities, an Administrative Agency of the Unified Government of Wyandotte County/Kansas City, Kansas ("BPU") and for Approval of a Purchase Water Adjustment ("PWA") Tariff.
11-KCPE-581-PRE	7	In the Matter of the Petition of Kansas City Power & Light Company ("KCP&L") for Determination of the Ratemaking Principles and Treatment that Will Apply to Recovery in Rates of the Cost to be Incurred by KCP&L for Certain Electric Generation Facilities Under K.S.A. 66-1239.
11-EPDE-856-RTS	6	In the Matter of the Application of The Empire District Electric Company for Approval to Make Certain Changes in Its Charges for Electric Service
12-MKEE-380-RTS	5	In the Matter of the Application of Mid-Kansas Electric Company, LLC for Approval to Make Certain Changes in its Charges for Electric Services in the Geographic Service Territory Served by Southern Pioneer Electric Company.
11-MDWE-609-RTS	3	In the Matter of the Application of Midwest Energy for Approval to Make Certain Changes in its Charges for Electric Service.
12-HHIW-382-RTS	2	In the Matter of the Application of Howison Heights, Inc., for Approval of Certain Changes in its Charges for Water Service.
12-KGSG-835-RTS	2	In the Matter of the Application of Kansas Gas Service, a Division of ONEOK, Inc. for Adjustment of Its Natural Gas Rates in the State of Kansas.
11-PWTE-600-MIS	1	In the Matter of the Application of Prairie Wind Transmission, LLC for a Siting Permit for the Construction of a Double Circuit 345 kV Transmission Line in Sedgwick, Sumner, Harper, and Barber Counties, Kansas
12-BHCG-678-ACQ	1	In the Matter of the Application of Black Hills/Kansas Gas Utility Company, LLC, d/b/a Black Hills Energy for an Extension of Its Certificate of Convenience and Authority to Operate as a Natural Gas Public Utility in an Area Heretofore Served by the City of Milford, Kansas, a Municipally Owned Natural Gas Utility
11-SUBW-448-RTS	1	In the Matter of the Application of Suburban Water, Inc., d/b/a Suburban Water Company, for an Order Increasing its Rates in Leavenworth County, Kansas.
12-FCMT-622-TAR	1	In the Matter of the Application of Fairpoint Communications Missouri's d/b/a Fairpoint Communications to Increase the Basic Local Access Line Rates.
09-ITCE-729-MIS	1	In the Matter of the Application of ITC Great Plains, LLC for a Siting Permit for the Construction of a 345kV Transmission Line in Edwards, Ellis, Ford, Hodgeman, Pawnee, and Rush Counties, Kansas.

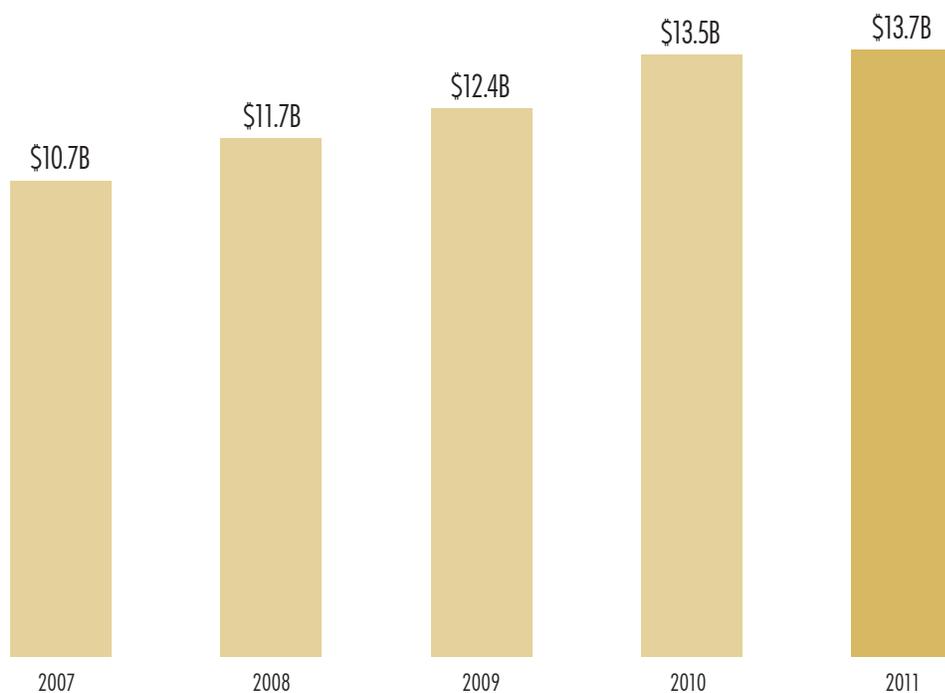

# Electric Utilities

## Financials

The following are selected Rate Base, Revenue, and Expense charts and tables including updated information beyond the close of the fiscal year, where available. Some charts depict information available only on a calendar-year basis. Empire District Electric and Kansas City Power & Light have operations in multiple states. The values represented in the following charts relate only to the Kansas operations of those two entities.

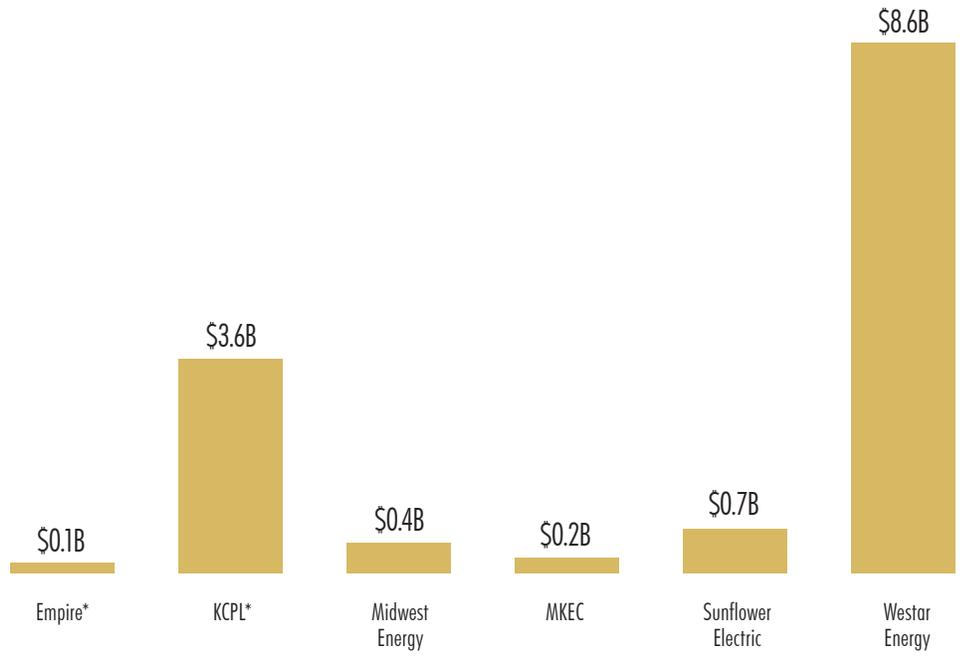

### ELECTRIC COMPANIES STATEWIDE RATE BASE | 2007–2011

Rate Base is the sum total value of utility assets and property as well as the fixed cost of the generation and provision of service on which the Utility's rate of return is applied in accordance with rules set by the KCC. This chart displays the aggregate total rate base of all regulated public utilities in Kansas for the past five years.

### ELECTRIC COMPANIES RATE BASE, BY COMPANY | 2011

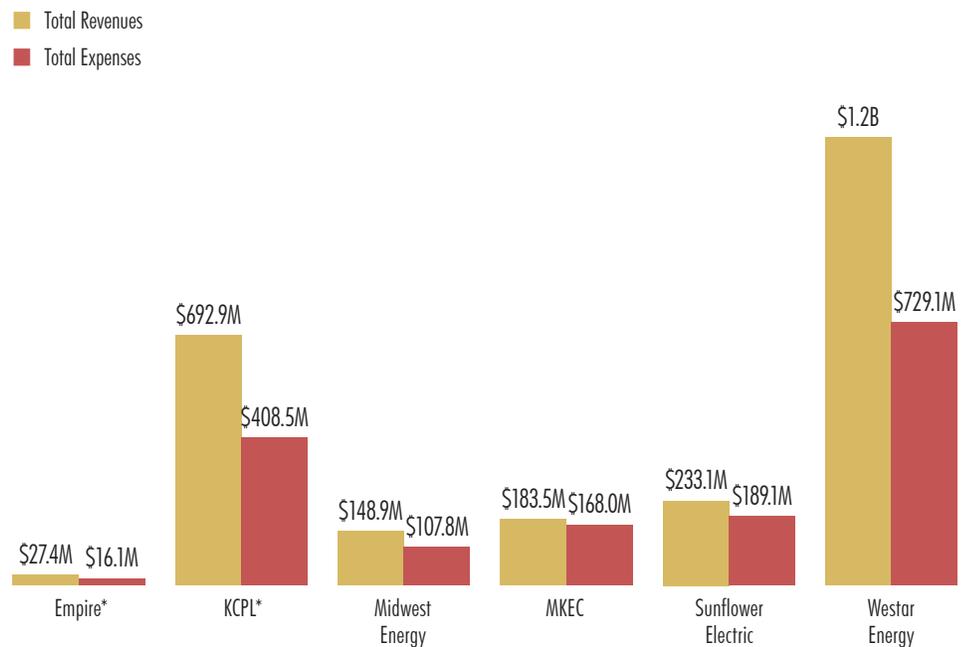

This chart takes the statewide aggregate rate base figure for 2010 from the preceding table and divides it among the major regulated utilities. As can be seen from the data, two entities encompass a vast majority of utility rate base across Kansas.

\*All figures for Kansas operations only.

### ELECTRIC COMPANIES REVENUES AND EXPENSES, BY COMPANY | 2011

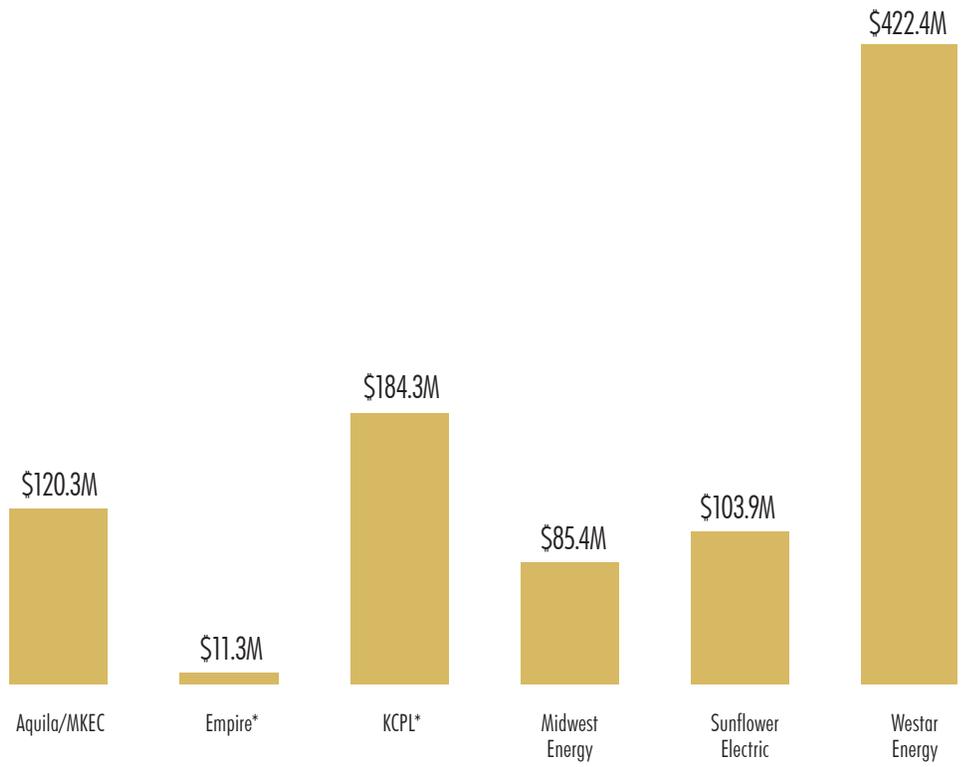

This chart compares each utility's annualized revenues and expenses. The difference between the two represents the gross margin of each company. Worth noting is the difference in gross margins between the investor-owned utilities and the cooperatives. Embedded in that difference is the dividend cost that rewards and helps ensure continued shareholder investment.

\*All figures for Kansas operations only.

## ELECTRIC COMPANIES GENERATING AND PURCHASED POWER COSTS, BY COMPANY | 2011

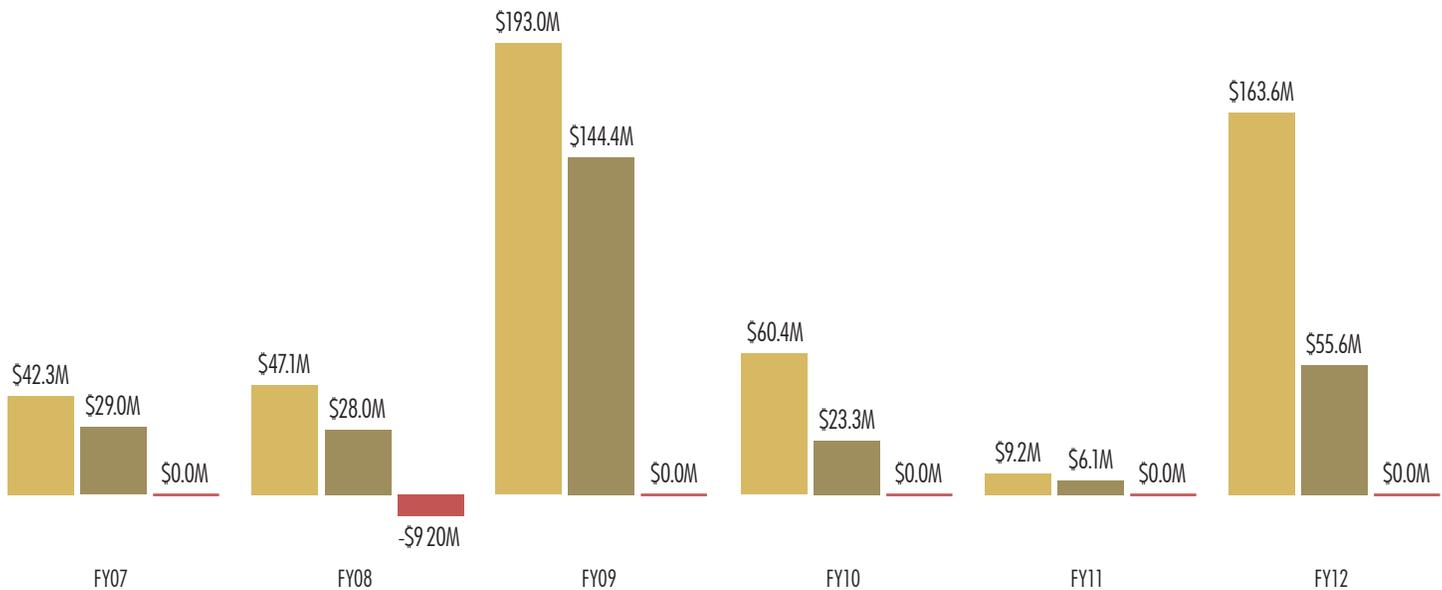

This chart takes the expense portion from each utility on the previous table and carves out the cost of generation and purchased power. As can be seen by comparing the two tables, generation and purchased power represent only about half the total cost of providing safe, reliable, and efficient electric service.

\*All figures for Kansas operations only.

## ELECTRIC COMPANIES WITH REVENUES OF OVER \$10M | RATE CASE RESULTS | FY07–FY12

- Requested
- Granted
- Refunds and/or Rate Reductions

**ELECTRIC BILL COMPARISON (AS OF 12/1/2012)**

The following chart represents a comparison of monthly bills based on average residential consumption of 990 kWh.

Company	Customer Charge	Energy Charge	Fuel Adjust-ment***	Environmental Cost Recovery	Energy Efficiency Rider	Trans. Delivery Charge	Property Tax Surcharge	Total Bill Without Tax	Kansas to % of National Average	Weighted Average Cost of Total Bill	2012 Annual Report Customers	2012 Annual Report Dollars

# Generation Planning Survey

The Commission continues to monitor the generation capacity and reliability of Kansas electric utilities. Staff members annually review generation and load forecasts of Kansas electric utilities to ascertain whether there is adequate electric supply to meet the needs of Kansas electric consumers. The findings of that survey can be seen below. Based on its 2011 review,

Staff determined that, at this time, forecasted electric generation capacity and planning to meet future changes in system load in the State of Kansas appears sufficient given current load and generation forecasts planned. Although utilities in the chart do indicate deficiencies in the future, planned generation capacity additions can be made that will satisfy future plan-

ning responsibility. The chart on this page describes the generation capacity situation major utilities in Kansas face going forward.

# Large Electric Rate Cases

## WESTAR ENERGY, INC. AND KANSAS GAS AND ELECTRIC COMPANY

<i>Docket number</i>	<i>12-WSEE-112-RTS</i>
<i>Docket type</i>	<i>Electric</i>
<i>Date filed</i>	<i>25 Aug 2011</i>
<i>Action date</i>	<i>18 Apr 2012</i>
<i>Commission action</i>	<i>Approved</i>

### In the Matter of the Joint Application of Westar Energy, Inc. and Kansas Gas and Electric Company for Approval to Make Certain Changes in Their Charges for Electric Service.

Westar Energy, Inc. and Kansas Gas and Electric Company (Westar) filed its Application for a rate increase on August 25, 2011. The total request was a \$90.8 million increase in revenue requirement and a return on equity of 10.6%. Among the causes for the rate increase, the Company cited increasing costs of: 1) Complying with federal regulatory requirements; 2) Maintaining power plants and wires in good repair, rather than replacing them at higher cost; 3) Keeping trees away from power lines; and 4) Keeping commitments to its employees. Several parties were granted intervention in the rate case. On January 5, 2012, the parties filed their direct testimony. Staff recommended an increase of \$33.6 million; The Kansas Industrial Consumers Group, Inc. (KIC) recommended an increase of roughly \$30.3 million; and The Citizens' Utility Ratepayer Board (CURB) recommended that the Commission decrease Westar's rates by approximately \$11.6 million. On January 26 and 30, 2012, the parties met collectively to discuss the possible settlement of issues in this matter. After extensive negotiations, the parties to the S&A agreed to a "black box" settlement.

On April 18, 2012, the Commission approved a \$50 million increase in revenue requirement, a return on equity of 10.0%, and an overall rate of return of 8.4049%.

## MID-KANSAS ELECTRIC COMPANY, LLC

<i>Docket number</i>	<i>12-MKEE-380-RTS</i>
<i>Docket type</i>	<i>ELECTRIC</i>
<i>Date filed</i>	<i>20-Dec-11</i>
<i>Action date</i>	<i>16-Aug-12</i>
<i>Commission action</i>	<i>Approved</i>

### In the Matter of the Application of Mid-Kansas Electric Company, LLC for Approval to Make Certain Changes in its Charges for Electric Service in the Geographic Service Territory Served by Southern Pioneer Electric Company.

Mid-Kansas Electric Company, LLC requested approval of one of two different revenue requirements scenarios: 1) a \$6,112,948 or a 10.5% annual revenue requirement with the proposed debt service coverage (DSC) ratemaking approach; 2) a \$7,992,522 or 13.7% annual revenue requirement using traditional ratemaking filings or no DSC ratemaking approach. Both approaches were based on: a) DSC ratio; b) income taxes; c) RUS buyout. The Company's largest request was for a DSC Ratemaking plan that would be established for a five year timeframe that would allow the Company to adjust its rates annually to meet a target ratio. Staff recommended disallowance of the DSC ratemaking plan and recovery of income taxes and returned with an initial request of \$2.8 million increase in revenue requirement. The Citizens Utility Ratepayer's Board (CURB) also recommended disallowance of the DSC ratemaking plan and recovery of income taxes and returned with an initial request of \$1.78 million increase in revenue requirement. Kansas Electric Power Cooperative, Inc. (KEPCo) also recommended disallowance of the DSC ratemaking plan and income taxes but did not provide a revenue requirement recommendation. Kansas Power Pool (KPP) did not file any recommendations. The parties later negotiated and jointly moved for Commission approval on a Stipulation & Agreement (S&A) which called for among other issues, \$5 million total increase in revenue requirement with an LAC rate of \$2.67

per kw per month, the parties agreed to reserve the right to litigate several issues in subsequent rate cases, authorization to file an abbreviated rate filing, opening of a compliance docket for purposes of tracking Co-Bank correspondences, and other minor issues. The S&A, with modifications was approved by the Commission on June 25, 2012. Staff and Southern Pioneer then filed for a petition for reconsideration and/or clarification on the order relating to the income tax issue and C-Corporation status. The Commission issued an order on the petition for reconsideration and/or clarification on August 8, 2012. New rates went into effect on July 2, 2012.

## KANSAS CITY POWER & LIGHT COMPANY

<i>Docket number</i>	<i>12-KCPE-764-RTS</i>
<i>Docket type</i>	<i>ELECTRIC</i>
<i>Date filed</i>	<i>20 Apr 2012</i>
<i>Action date</i>	<i>13 Dec 2012</i>
<i>Commission action</i>	<i>Approved</i>

### In the Matter of the Application of Kansas City Power & Light Company to Make Certain Changes in Its Charges for Electric Service.

Kansas City Power & Light Company (KCP&L) requested \$63.55 million increase in revenues and a return on equity of 10.4% based upon a capital structure of 51.8% equity, resulting in a total rate of return of 8.57%. KCPL gave five stated reasons for the requested rate increase, including: 1) Recovery of certain costs for installing environmental equipment at La Cygne generating station; 2) Addition to rate base of wind generation put into service after the last rate case; 3) Changing the Company's jurisdictional allocation method from a 12 monthly coincident peak (12-CP) to a 4 monthly coincident peak (4-CP); 4) Updated depreciation rates; and 5) Compliance with the Commission's directive in the 415 Order to address rate design, as well as other cost of service issues. Several parties were granted interven-

tion in the rate case. On August 22, 2012, the parties filed their direct testimony. Staff recommended a rate increase of approximately \$27.495 million; The Citizens' Utility Ratepayer Board (CURB) recommended roughly \$4.9 million; and all other interveners took no position on KCP&L's revenue requirement. September 28, 2012, the parties entered into a unanimous partial settlement agreement (Partial S&A). As a result of the Partial S&A, the parties revised their recommended revenue requirement as follows: KCP&L - \$56.4 million; Staff - \$29.3 million; and CURB - \$14.3 million. On December 13, 2012, the Commission approved a \$33.1 million increase in revenue requirement, a return on equity of 9.5%, and an overall rate of return of 8.0054%. Additionally, the Commission selected the 12-CP methodology for jurisdictional allocation of capacity-related costs to KCP&L's Kansas customers and also approved KCP&L's proposed rate design. An evidentiary hearing was held October 1 through October 4, 2012.

# Major Dockets | ELECTRIC UTILITIES

Pursuant to K.S.A. 66-117b, the following is a review with narrative of all dockets for Large Electric Utilities (those with \$10,000,000 or more annual revenue in the preceding calendar year) which caused changes to “rule or regulation or practice pertaining to the service or rates of a public utility or common carrier approved by the state corporation commission during the preceding fiscal year.” That year runs from July 1, 2011, through June 30, 2012.

## WOLF CREEK NUCLEAR OPERATING CORPORATION

*Docket number* 12-WCNE-136-GIE  
*Docket type* Electric/Nuclear  
*Date filed* 31 Aug 2011  
*Action date* 16 May 2012  
*Commission action* Order issued

**In the Matter of the 2011 Wolf Creek Decommissioning Cost Study as Provided by Wolf Creek Nuclear Operating Corporation on August 31, 2011 in Accordance with the Commission's Order in Docket Number 163,561-U on December 9, 1992**

On behalf of Kansas Gas and Electric Company, Kansas City Power and Light Company, and Kansas Electric Power Cooperative, Inc., Wolf Creek Nuclear Operating Corporation sought and received approval to include in rates \$630,135,000 for decommission costs of the Wolf Creek Nuclear Power Plant.

## WESTAR ENERGY, INC. AND KANSAS GAS AND ELECTRIC COMPANY

*Docket number* 09-SEPE-295-MIS  
*Docket type* Electric  
*Date filed* 29-SEPT-08  
*Action date* 11 Jan 2012  
*Commission action* Order issued

**In the Matter of the Joint Application of Westar Energy, Inc. and Kansas Gas and Electric Company for Approval of Rate Treatment of Transmission and Distribution Facilities.**

Westar Energy sought and was granted approval to classify some of its 34.5 kV facilities as distribution facilities under the SPP OATT, and some of their 34.5 kV facilities remain classified as Transmission Facilities.

<http://estar.kcc.ks.gov/estar/ViewFile.aspx/20120111163402.pdf?Id=62fc5666-392c-4f4f-ba79-ac44e4736ec2>

## MID-KANSAS ELECTRIC COMPANY AND SUNFLOWER ELECTRIC POWER CORPORATION

*Docket number* 09-SEPE-315-MIS  
*Docket type* Electric  
*Date filed* 02 Oct 2008  
*Action date* 14 Dec 2011  
*Commission action* Order issued

**In the Matter of Sunflower Electric Power Corporation and Mid-Kansas Electric Company, LLC Classification of Transmission Facilities Pursuant to the SPP Regional Open Access Transmission Tariff Attachment AL**

Under this joint filing with Mid-Kansas Electric Company, Sunflower Electric Power Corporation sought and was granted approval to classify all of its 69 kV to 345 kV facilities as Transmission Facilities under the SPP OATT. Mid-Kansas also sought to classify its 115 kV to 230 kV facilities as Transmission Facilities. This request was found to be a moot request, as a determination on this issue was made in the 09-MKEE-969-RTS docket.

<http://estar.kcc.ks.gov/estar/ViewFile.aspx/09-315%20Order.pdf?Id=91063d28-0ceb-4942-9f0d-86a947626333>

## GENERAL INVESTIGATION

*Docket number* 11-GIME-492-GIE  
*Docket type* Electric  
*Date filed* 10 Jan 2011  
*Action date* 21 Dec 2011  
*Commission action* Closed

**In the Matter of a General Investigation Into KCP&L and Westar Generation Capabilities, Including as these Capabilities May Be Affected by Environmental Requirements.**

Recognizing the potentially significant impact of new and emerging environmental regulations, the Commission opened a general investigation, on January 10, 2011, to determine how environmental upgrade requirements may affect the generation capabilities of KCPL and Westar and to establish criteria to be used when evaluating retrofit, decommission, or replacement decisions. In its Order opening the docket, the Commission directed the parties to answer a set of questions designed to provide the Commission with insight into the decision making process and to provide a framework to use when addressing the retrofit/replacement decision.

KCPL, Westar, the Citizens' Utility Ratepayer Board (“CURB”), and the Sierra Club filed Initial Comments in this docket on February 25, 2011. The same parties also filed Response Comments on March 16, 2011. After reviewing all comments and responses submitted and conducting its own independent research, Staff filed its Report and Recommendation on July 8, 2011. The Commission closed the docket in response to Staff's report and recommendations on December 21, 2011.

## KANSAS CITY POWER & LIGHT COMPANY

*Docket number* 11-KCPE-581-PRE  
*Docket type* ELECTRIC  
*Date filed* 23 Feb 2011  
*Action date* 19 Aug 2011  
*Commission action* Pre-approved in part

On February 23, 2011, Kansas City Power & Light Company (KCP&L) filed an Application requesting the Commission predetermine rate-making principles and treatment to recover costs related to environmental up-

grades required to comply the Environmental Protection Agency's (EPA) Regional Haze Rule at its La Cygne Generating Station. On August 19, 2011, the Commission issued its Order and found KCP&L's plan to retrofit La Cygne Units 1 and 2 was reasonable. Specifically, the Commission found: (1) the \$1.23 billion cost (excluding AFUDC and taxes) is reasonable, (2) the \$1.23 billion cost constitutes an "original cost estimate" and is a "definitive estimate" for purposes of examining prudence under K.S.A. 66-128 g(b) (1), (3) KCP&L will bear the burden of proof should construction costs exceed the \$1.23 billion and KCP&L seeks recovery of the cost overruns, (4) the cost of capital and rate of return for the La Cygne project will be the same as that established in general rate cases, and (5) KCP&L's request for an environmental cost recover rider is denied.

#### GENERAL INVESTIGATION

*Docket number* 11-GIME-597-GIE  
*Docket type* Electric  
*Date filed* 25 Feb 2011  
*Action date* 11 Jan 12  
*Commission action* Order issued

**In the Matter of the General Investigation Into the Classification as Transmission of Distribution of Certain 34.5 kV Facilities Owned by Certain Members of Mid-Kansas Electric Company, LLC and Into Certain Agreements Relating to the Provision of Wholesale Service by Mid-Kansas Electric Company, LLC to Kansas Power Pool and Kansas Electric Power Cooperative, Inc. on Such Facilities.**

The Commission opened this general investigation to determine the classification of Mid-Kansas Electric Companies (Mid-Kansas) 34.5 kV facilities. The docket concluded with a Commission Order stating the Commission's agreement with the Stipulation and Agreement reached by the parties wherein it was agreed that the 34.5 kV facilities owned by Mid-Kansas would not be classified as Transmission Facilities.

<http://estar.kcc.ks.gov/estar/ViewFile.aspx/20120111143248.pdf?Id=80b30790-db69-4a0f-bf0b-38695a005069>

#### GRAIN BELT EXPRESS CLEAN LINE, LLC

*Docket number* 11-GBEE-624-COC  
*Docket type* Electric  
*Date filed* 07 Mar 2011  
*Action date* 07 Dec 2011  
*Commission action* Order issued

**In the Matter of the Application of Grain Belt Express Clean Line LLC for a Limited Certificate of Public Convenience to Transact the Business of Public Utility in the State of Kansas.**

Grain Belt Express Clean Line, LLC sought and was granted a certificate of public convenience to conduct the business of a public utility in the State of Kansas. This certificate was the first major step in a long line of requirements to building a high voltage direct current (DC) Transmission Line across the State of Kansas that will collect wind generated energy in southwest Kansas and deliver it to a point in Indiana, where the project will interconnect with the bulk electric grid.

<http://estar.kcc.ks.gov/estar/ViewFile.aspx/20111207160045.pdf?Id=3a579188-df77-4d09-b079-3de798a414a5>

#### MID-KANSAS ELECTRIC COMPANY, LLC

*Docket number* 12-MKEE-650-TAR  
*Docket type* ELECTRIC  
*Date filed* 24 Feb 2012  
*Action date* 31 Oct 2012  
*Commission action* Approved

**In the Matter of the Application of Mid-Kansas Electric Company, LLC for Approval to Adopt and Implement a Formula-Based Rate for Recovery of Transmission Costs and to Amend Its Open Access Transmission Tariff.**

On February 24, 2012, Mid-Kansas filed an application with the Commission for implementation of a Formula Based Rate (FBR) that would allow it to update annually the revenue requirement associated with investments in transmission projects directed to be built by the Southwest Power Pool (SPP) in the Open Access Transmission Tariff (OATT) at SPP. Additionally, Mid-Kansas sought to make revisions to its OATT on file with the Commission to clarify that the OATT only applies to transmission service over facilities owned by the members of Mid-Kansas, and thus not covered under SPP's OATT. Staff and

other interested parties filed testimony on July 31, 2012, and made several recommended changes to the OATT, the FBR, and the Protocols that governed the implementation and annual updating of the FBR. On September 5, 2012, the Parties filed a Stipulation and Agreement which offered several improvements to the FBR, OATT, and Protocols. These changes included corrections to the calculation of the incentive return for RTO membership, limits to the annual increases in operating expenses, several adjustments to reflect revenue and exclude expenses, and several enhancements to the review procedures called for in the Protocols. The Commission held a hearing on September 12, 2012 and approved the Stipulation and Agreement on October 31, 2012.

# Dockets

## LARGE ELECTRIC UTILITIES (revenues of more than \$10M)

The Commission acted upon 71 dockets filed by Large Electric Utilities from July 1, 2011, to June 30, 2012. These filings involved companies with operating revenues of more than \$10,000,000.

# Natural Gas Utilities

## Financials

The following are selected Rate Base, Revenue, and Expense charts and tables including updated information beyond the close of the fiscal year, where available. Some charts depict information available only on a calendar-year basis.

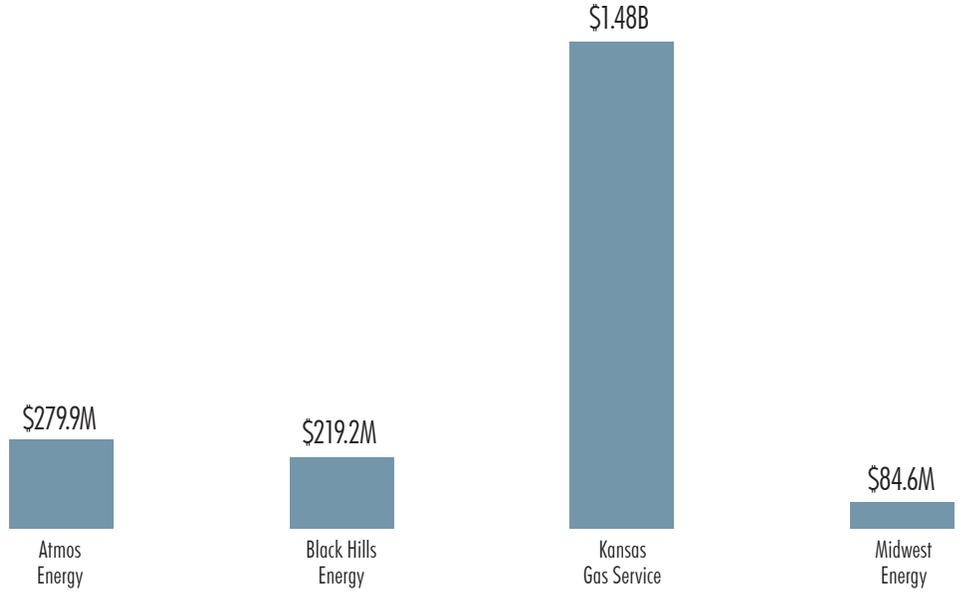

### **GAS COMPANIES STATEWIDE RATE BASE | 2007–2011**

Rate Base is the sum total value of utility assets and property as well as the fixed cost of the generation and provision of service on which the Utility's rate of return is applied in accordance with rules set by the KCC. This chart displays the aggregate total rate base of all regulated public utilities in Kansas for the past five years.

**GAS COMPANIES RATE BASE, BY COMPANY | 2011**

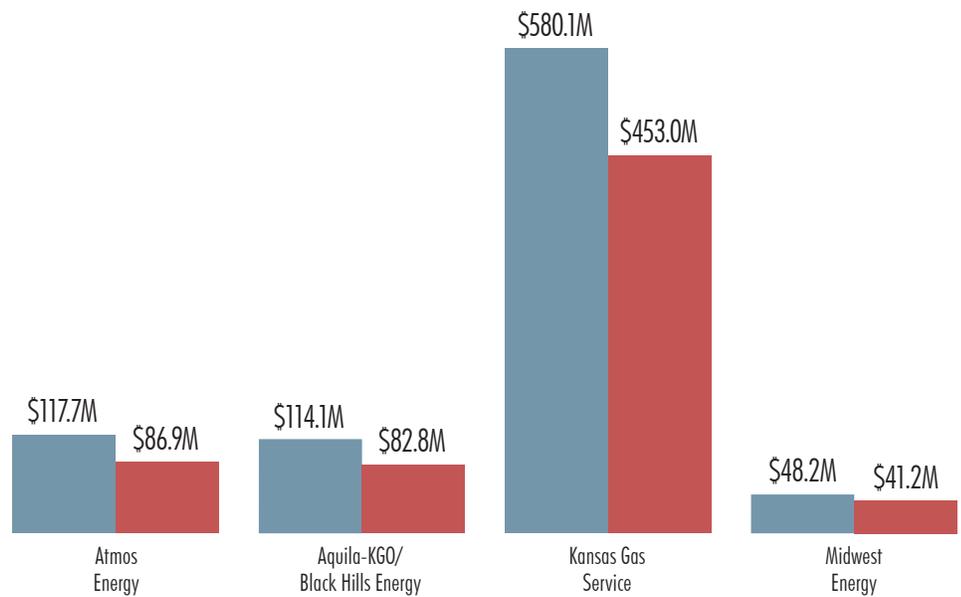

This chart takes the statewide aggregate rate base figure for 2010 from the preceding table and divides it among the major regulated utilities. As can be seen from the data, one entity encompasses a vast majority of utility rate base across Kansas.

**GAS COMPANIES REVENUES AND EXPENSES, BY COMPANY | 2011**

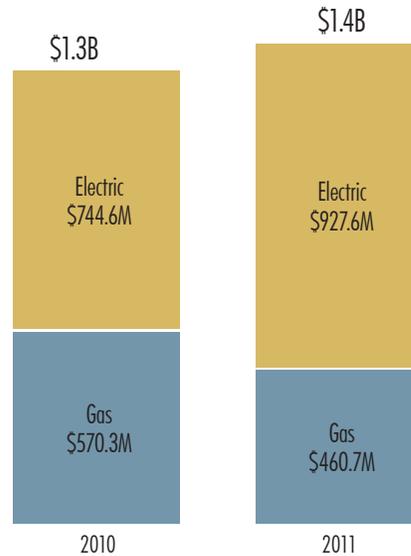

This chart compares each utility’s annualized revenues and expenses and the difference between the two represents the gross margin of each company.

■ Total Revenues  
■ Total Expenses

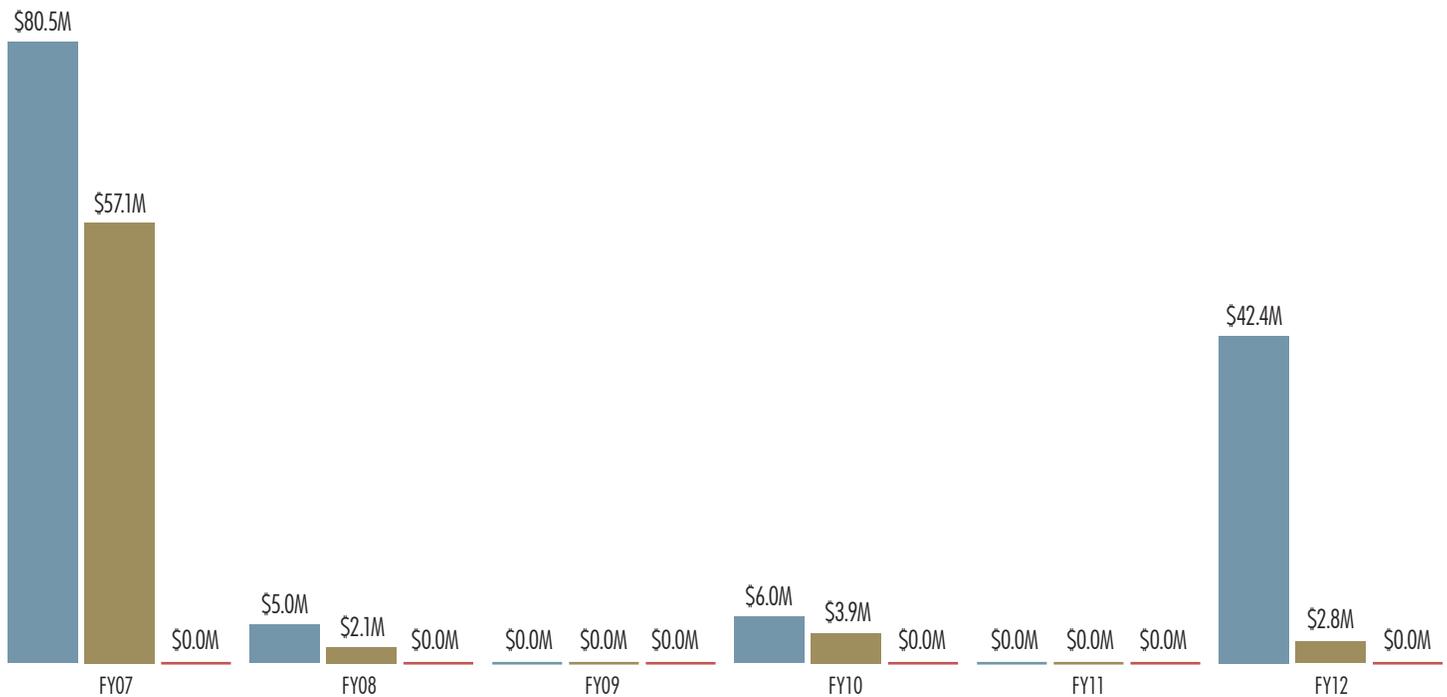

## TOTAL PURCHASED GAS (GAS UTILITIES) AND TOTAL PURCHASED FUEL FOR GENERATION (ELECTRIC UTILITIES)

This chart shows the total natural gas purchased for utility use for the last two years. Each column bar is broken down into blue and yellow portions. The blue represents gas purchased by the gas utilities for regulated delivery to their retail and wholesale customers. The yellow represents natural gas “fuel” purchased by electric utilities for natural gas-fired generation of electricity. Some may find it interesting that the numbers are strikingly equivalent. Whereas the bulk of retail gas use (blue) is for winter heating, utility gas fuel use is predominantly during peak electric usage summer months where baseload nuclear and coal generation have already been dispatched and the remaining load must be served by gas-fired generation.

## GAS UTILITIES WITH REVENUES OF OVER \$10M | RATE CASE RESULTS | FY07–FY12

- Requested
- Granted
- Refunds and/or Rate Reductions

## RESIDENTIAL GAS BILL COMPARISON

The following chart represents a comparison of monthly bills based on average residential consumption of 10 Mcf.

Company** (12/01/2012)	Customer Charge	Commodity Margin	Cost of Gas***	Hedge Factor	Bill Without Tax	Cost Per MCF	% of National Average	% of Kansas Average	Tariff Margin	Hedge	Purchased Gas Adjustment	2011 Average: Customers	2011 Average: Dollars

# Large Gas Rate Cases

## **ATMOS ENERGY CORP.**

*Docket number* 12-ATMG-564-RTS  
*Docket type* Gas  
*Date filed* 26 Jan 2012  
*Action date* 22 Aug 2012  
*Commission action* Approved

### **In the Matter of the Application of Atmos Energy for Adjustment of Its Natural Gas Rates in the State of Kansas**

Atmos Energy requested a \$9.7 million annual revenue increase based on: 1) Higher operating expenses; 2) Cost of capital; 3) Depreciation. Staff recommended a \$1.06 million increase in revenue requirement. The Citizens' Utility Ratepayer Board recommended a \$2.95 million increase in revenue requirement. The parties later negotiated and the company and Staff (CURB neither joined in, nor opposed, the proposed settlement) jointly moved for Commission approval of a Stipulation and Agreement that called for among other issues, a \$2.8 million increase in revenue requirement, the use of Staff's depreciation rates, Atmos withdrawing its decoupling mechanism request, and other minor issues. The Stipulation & Agreement was approved by the Commission on August 22, 2012, and the new rates went into effect on September 1, 2012.

## **KANSAS GAS SERVICE, A DIVISION OF ONEOK, INC**

*Docket number* 12-KGSG-835-RTS  
*Docket type* Gas  
*Date filed* 18 May 2012  
*Action date* 05 Dec 2012  
*Commission action* Approved

### **In the Matter of the Application of Kansas Gas Service, a Division of ONEOK, Inc. for Adjustment of Its Natural Gas Rates in the State of Kansas**

Kansas Gas Service, a Division of ONEOK, Inc requested a \$32.7 million annual revenue increase based on: 1) Capital Structure and Return on Equity; 2) Depreciation; 3) Revenue Normalization Adjustment. Staff returned with an initial request for a \$14.4 million increase in revenue requirement – which was later reduced to a \$14.1 million increase in revenue requirement. The Citizens' Utility Ratepayer Board returned with an initial request for a \$14.2 million increase in revenue requirement. The parties later negotiated and jointly moved for Commission approval on a Stipulation & Agreement which called for among other issues, \$28 million increase in revenue requirement, the use of Staff's Depreciation rates, Kansas Gas Service withdrew the Revenue Normalization Adjustment, and other minor factors. The Stipulation & Agreement was approved by the Commission on December 5, 2012, and the new rates went into effect on January 1, 2013.

The Commission acted upon 27 dockets filed by Large Gas Utilities from July 1, 2011, to June 30, 2012. These filings involved companies with operating revenues of more than \$10,000,000.

# Major Dockets

# NATURAL GAS PIPELINE SAFETY

## MAPLETON GAS PIPELINE, INC.

<i>Docket number</i>	<i>12-GIMG-124-GIG</i>
<i>Docket type</i>	<i>Gas</i>
<i>Date filed</i>	<i>30 Aug 2011</i>
<i>Action date</i>	<i>11 Apr 2012</i>
<i>Commission action:</i>	<i>Closed</i>

**In the Matter of the General Investigation into the Current Operations and Disposition of Mapleton Gas Pipeline, Inc. Natural Gas Distribution System Serving 68 Residential Customers in the City of Mapleton, Kansas.**

The unexpected death of the owner and operator of Mapleton Gas Pipeline resulted in a gas system serving 68 customers with no operator. The Commission worked with the owner's heirs, the City of Mapleton, and adjacent municipal gas operators to maintain the safety of the system and identify a new permanent operator for the system.

## KANSAS GAS SERVICE

<i>Docket number</i>	<i>12-KGSG-490-GIG</i>
<i>Docket type</i>	<i>Gas</i>
<i>Date filed</i>	<i>4 Jan 2012</i>
<i>Action date</i>	<i>N/A</i>
<i>Commission action</i>	<i>Open</i>

**In the Matter of the General Investigation Into Potential Involvement of Escaped Natural Gas from a Pipeline Operated by Kansas Gas Service in the December 20, 2011, Explosion Resulting in Injury to Persons and Property in Wichita, Kansas.**

Staff Report and Recommendation has been filed. Investigation continues at this time.

## BLACK HILLS ENERGY

<i>Docket number</i>	<i>12-BHCG-519-GIG</i>
<i>Docket type</i>	<i>Gas</i>
<i>Date filed</i>	<i>20 Jan 2012</i>
<i>Action date</i>	<i>22 Aug 12</i>
<i>Commission action</i>	<i>Closed</i>

**In the Matter of the General Investigation into Potential Involvement of Escaped Natural Gas from a Pipeline Operated by Black Hills/Kansas Gas Utility Company, LLC, d/b/a Black Hills Energy in the January 8, 2012, Explosion Resulting in Injury to Persons and Property in Sublette, Kansas.**

Staff investigation determined the explosion was the result of migrating gas from a crack in a Black Hills gas main that had been damaged by an unknown third party during the installation of a sewer lateral pipe directly beneath the failure point. Staff further concluded that Black Hills Energy committed no violations of pipeline safety regulations related to this incident. The Commission found Staff's report to be sufficient and closed the docket.

## KANSAS GAS SERVICE

<i>Docket number</i>	<i>12-GIMG-584-GIP</i>
<i>Docket type</i>	<i>Gas</i>
<i>Date filed</i>	<i>1 Feb 2012</i>
<i>Action date</i>	<i>N/A</i>
<i>Commission action</i>	<i>Open</i>

**In the Matter of the General Investigation into the Escaped of Natural Gas from a Pipeline Operated by Kansas Gas Service, Inc., A Division of ONEOK, on January 30, 2012, Resulting in an Explosion and Injury to Person and Property in Topeka, Kansas.**

Staff Report and Recommendation has been filed. Investigation continues at this time.

## KANSAS GAS SERVICE

<i>Docket number</i>	<i>12-KGSG-721-TAR</i>
<i>Docket type</i>	<i>Gas</i>
<i>Date filed</i>	<i>28 Mar 2012</i>
<i>Action date</i>	<i>13 Sept 2012</i>
<i>Commission action</i>	<i>Denied/Closed</i>

**In the Matter of the Application of Kansas Gas Service, a Division of ONEOK, Inc. for the Approval of an Infrastructure Replacement Program Surcharge.**

Denied application and recommended recovery through the GSRs process. The Commission found that cast iron piping in natural gas service should be replaced as quickly as feasible and directed Kansas Gas Service to file an annual report demonstrating the progress of their voluntary replacement program.

## BOB BERGKAMP CONSTRUCTION CO., INC.

<i>Docket number</i>	<i>12-DPAX-730-SHO</i>
<i>Docket type</i>	<i>—</i>
<i>Date filed</i>	<i>16 Apr 2012</i>
<i>Action date</i>	<i>19 June 2012</i>
<i>Commission action</i>	<i>Approved</i>

**In the Matter of the Investigation of Bob Bergkamp Construction Co., Inc. of Wichita, Kansas, Regarding the Violation of the Kansas Underground Utility Damage Prevention Act and the Commission's Authority to Impose Penalties and Injunctive Relief.**

Approved a settlement agreement which requires Bergkamp to modify its operating procedures to include daily briefings at excavation sites on action to be taken when working over underground utilities. Settlement agreement included a \$3,500 civil penalty.

# Water

## Water Cases

### **SUBURBAN WATER, INC.**

<i>Docket number</i>	<i>12-SUBW-359-RTS</i>
<i>Docket type</i>	<i>Water</i>
<i>Date filed</i>	<i>16 Nov 2011</i>
<i>Action date</i>	<i>11 Jul 2012</i>
<i>Commission action</i>	<i>Approved</i>

**In the Matter of the Application of Suburban Water, Inc., d/b/a Suburban Water Company, for Approval of the Commission to Make Certain Changes in Its Rates for Water Service, for Approval of an Amendment to a Contract for Sale of Water with Board of Public Utilities, an Administrative Agency of the Unified Government of Wyandotte County/Kansas City, Kansas (“BPU”) and for Approval of a Purchase Water Adjustment (“PWA”) Tariff.**

Suburban Water requested a \$296,280 annual revenue increase based on an insufficient profit margin. Suburban also requested approval of an amendment to a contract for purchases of water from the Kansas City Board of Public Utilities (BPU), and for approval of a Purchase Water Adjustment (PWA) tariff. Staff returned with a request for a rate decrease of \$71,555. The Citizens’ Utility Ratepayer Board recommended that Suburban’s request for an increase be denied. The parties later negotiated and jointly moved for Commission approval on a Stipulation & Agreement which called for a \$13,500 decrease in the revenue requirement, approval of the BPU contract amendment, Suburban’s

withdrawal of its request for a PWA, company employees would stop making personal purchases with the company credit card, company would send out its projects for bids, pay for a new ground water supply survey, and other minor factors. The Stipulation and Agreement was approved by the Commission on July 11, 2012, and the new rates went into effect on August 1, 2012.

### **HOWISON HEIGHTS, INC.**

<i>Docket number</i>	<i>12-HHIW-382-RTS</i>
<i>Docket type</i>	<i>Water</i>
<i>Date filed</i>	<i>22 Nov 2011</i>
<i>Action date</i>	<i>22 Aug 2012</i>
<i>Commission action</i>	<i>Application Withdrawn</i>

**In the Matter of the Application of Howison Heights, Inc. for Approval of Certain Changes in its Charges for Water Service**

The first water rate case was Docket 12-HHIW-382-RTS filed by Howison Heights, Inc. on November 22, 2011. The company requested a \$41,652 annual revenue increase based on an insufficient profit margin. Staff returned with a request for a rate increase of \$20,981. The Citizens’ Utility Ratepayer Board recommended that Howison’s request for an increase be denied because the company did not provide sufficient evidence to determine if the requested rates

are just and reasonable. On March 21, 2012, the Commission approved a stay of proceedings so the company could complete certain tasks recommended by Staff and CURB. On June 6, 2012, the Commission approved a second stay of proceedings to provide time for the company’s owner to negotiate the sale of the company. On August 9, 2012, the company requested that its application be withdrawn using the reasoning that an increase in rates at this point would not provide the company with adequate additional revenues. On August 22, 2012, the Commission approved the company’s request to withdraw its application.

### **SUBURBAN WATER, INC.**

<i>Docket number</i>	<i>12-SUBW-359-RTS</i>
<i>Docket type</i>	<i>WATER</i>
<i>Date filed</i>	<i>16-NOV-11</i>
<i>Action date</i>	<i>11-JUL-12</i>

### TELECOMMUNICATION UTILITIES RECEIVING KUSF SUPPORT | FY07–FY12

---

**NUMBER OF KUSF TELECOMMUNICATION FILINGS | FY07–FY12**

# Major Dockets | LARGE TELECOM UTILITIES

Pursuant to K.S.A. 66-117b, the following is a review with narrative of all dockets for Large Telecom Utilities (those with \$10,000,000 or more annual revenue in the preceding calendar year) which caused changes to “rule or regulation or practice pertaining to the service or rates of a public utility or common carrier approved by the state corporation commission during the preceding fiscal year.”

## GENERAL INVESTIGATION

*Docket number* 10-GIMT-658-GIT

*Action date* 27 Mar 2012  
*Commission action* Order Issued

### In the Matter of Staff’s Motion to the Commission to Commence a Generic Proceeding to Address Issues Concerning the Kansas Lifeline Service Program.

This docket is a generic proceeding in which the KCC reviewed issues related to the Kansas Lifeline Service Program (KLSP), which is a telecommunications discount program for low-income persons. The KCC issued an Order on August 17, 2011, addressing numerous KLSP-related issues but tabled one issue related to annual certification until after the FCC addressed the issue. On February 6, 2012, the FCC issued its Lifeline and Link Up Modernization and Reform Report and Order and Further Notice of Proposed Rulemaking addressing Eligible Telecommunications Carrier certification requirements and other related issues. On March 27, 2012, the KCC addressed and implemented the FCC’s requirements by: 1) requiring all carriers in Kansas offering Lifeline service to obtain certification from their subscribers by June 1, 2012; 2) requiring the carriers to either utilize the Kansas Lifeline Certification Form or submit its own form at least 14 days prior to utilizing such form; 3) requiring all Eligible Telecommunications Carriers in Kansas to coordinate with the Kansas Department of Social and Rehabilitative Services and participate when it is feasible for SRS to add the carrier to their eligibility database program; 4) defining for KLSP purposes, the term “automatically enroll,” as used in K.S.A. 66-2006, as “enrolling the consumer in the Kansas

Lifeline Service Program after receiving the consumers’ express consent to do so and a completed Lifeline Certification Form”; 5) requiring carriers to continue to use the re-certification process ordered in Docket No. 05-GIMT-1039-GIT; 6) requiring carriers to file their aggregated re-certification data in this Docket by January 31, 2013, and every year thereafter; 7) adding the Food Distribution Program on Indian Reservations as a program eligible for Lifeline support under the KLSP; and 8) requiring carriers needing to file tariff revisions to reflect low-income program changes adopted by the FCC to file such changes in this Docket.

*Docket type* Telecom  
*Date filed* 07 Jan 2011  
*Action date* 31 Aug 2011  
*Commission action* Order Issued

### In the Matter of the Application of the Pioneer Telephone Association, Inc. d/b/a Pioneer Communications for Additional Kansas Universal Service Fund Support Pursuant to K.S.A. 66-2008.

Pioneer filed an application with the KCC requesting an increase of \$3,795,971 to the \$2,051,848 annual amount of Kansas Universal Service (KUSF) support received by Pioneer, pursuant to K.S.A. 2010 Supp. 66-2008. Commission Staff filed testimony on May 25, 2011, recommending

Pioneer receive an additional \$1,469,630 in KUSF support. The parties reached a Stipulated Settlement Agreement in which Pioneer would receive an additional \$1,751,449 per year over its then current level of \$2,051,848 per year, for a new total annual KUSF support amount of \$3,803,297. The KCC issued an Order on August 31, 2011, adopting the Stipulated Settlement Agreement to be effective September 1, 2011.

*Date filed* 07 Dec 2010  
*Action date* Open  
*Commission action* Proceeding Stayed

### In the Matter of a Review of the Forward-Looking High-Cost Model Used to Determine Cost-Based Kansas Universal Service Fund Support for Price Cap Carriers and Competitive Eligible Telecommunications Carriers Offering Service in Price Cap Carrier Study Areas.

This proceeding was opened to review a new forward-looking high-cost model for price cap carriers and competitive ETCs receiving KUSF support in the areas served by the price cap carriers, AT&T and CenturyLink. Due to reforms at the national level, the KCC determined it would stay this proceeding until after the FCC adopts a new high-cost model for price cap carriers for federal support purposes, which is expected to be completed in 2013.

#### **In the Matter of Rainbow Telecommunications Association's Application for Additional Support from the Kansas Universal Service Fund.**

Rainbow filed an application with the KCC requesting an increase of \$910,346 to the \$198,803 annual amount of KUSF support received by Rainbow, pursuant to K.S.A. 2010 Supp. 66-2008. Commission Staff filed testimony on July 26, 2011, recommending Rainbow's annual KUSF support be reduced to \$24,257 annually. The parties reached a Stipulated Settlement Agreement in which Rainbow would continue to receive an annual amount of \$198,803 in KUSF support. The KCC issued an Order on October 5, 2011, adopting the Stipulated Settlement Agreement.

#### **In the Matter of the Application of Cunningham Telephone Company, Inc. for Additional Kansas Universal Service Fund Support Pursuant to K.S.A. 66-2008**

Cunningham filed an application with the KCC requesting an increase of \$1,169,811 to the \$421,586 annual amount of KUSF support received by Cunningham, pursuant to K.S.A. 2010 Supp. 66-2008. Commission Staff filed testimony on September 2, 2011, recommending Cunningham's annual KUSF support be increased to \$897,221. The parties reached a Stipulated Settlement Agreement in which Cunningham would receive an additional \$481,406

per year over its then current level of \$421,586 per year, for a new total annual KUSF support amount of \$902,992. The KCC issued an Order on December 7, 2011, adopting the Stipulated Settlement Agreement to be effective January 1, 2012.

#### **In the Matter of Determining a Methodology to Identify and Report Kansas Prepaid Wireless Service Revenue for Kansas Universal Service Fund Purposes.**

This docket was opened because staff recognized providers were utilizing differing methodologies for reporting intrastate prepaid wireless service revenue and determined it was appropriate for the KCC to determine a specific method to be utilized by all prepaid wireless providers to ensure consistent reporting. The Commission ordered that prepaid wireless service providers shall report prepaid service revenues a) when earned, b) as service is used, and c) immediately when service must be used within a short period of time, such as within 30 days.

#### **In the Matter of a General Investigation into the Kansas Universal Service Fund.**

The KCC opened this proceeding to investigate issues related to the KUSF to determine if any changes need to be made, pursuant to K.S.A. 66-2008(c). The issues to be investigated include: 1) a review of the impact the FCC's federal USF and ICC reform will have on Kansas and the KUSF, including a review of the state's definition of universal service; 2) a review of the KUSF pursuant to K.S.A. 66-2008(c) to determine if the costs of qualified telecommunications public utilities, telecommunications carriers and wireless telecommunications service providers to provide local service justify modification of the KUSF; and 3) to address any findings from the pending audit of the KUSF third party administrator in this docket. The FCC's October 27, 2011, Order, which was released on November 18, 2011, was filed in this docket. The KCC held an Industry Conference and a Scheduling Conference on January 9, 2012. The KCC later requested comments and reply comments be filed on March 1, 2012, and April 2, 2012, respectively, and legal briefs be filed on April 16, 2012. Following a September 2012 Staff Report the KCC issued an Order on November 15, 2012, requesting additional briefs and reply briefs be filed by December 17, 2012, and January 14, 2013, respectively.

**In the Matter of Staffs Motion Requesting the Commission Order S & T Telephone Coop Association, Inc. to Submit to an Audit for Purposes of Determining its Cost Based Kansas Universal Service Fund Support, Pursuant to K.S.A. 66-2008.**

The KCC opened this proceeding at the request of Commission Staff to Order S&T to submit to an audit for purposes of determining its cost-based KUSF support, pursuant to K.S.A. 66-2008. S&T made its compliance filing on March 23, 2012, in which it requested an increase of \$1,167,107 in addition to its then current annual KUSF draw of \$832,038 for a total of \$1,999,145 in annual KUSF support. Commission Staff filed testimony on August 15, 2012, recommending S&T's annual KUSF support be reduced by \$736,443 for a proposed annual KUSF support amount of \$77,961. The parties reached a Stipulated Settlement Agreement in which S&T's total annual KUSF support amount would be set at \$200,000 per year for the month of December 2012. Thereafter, S&T shall receive \$450,000 per year, beginning January 1, 2013. The KCC issued an Order on November 15, 2012, adopting the Stipulated Settlement Agreement.

**In the Matter of Staff's Motion Requesting the Commission Order Gorham Telephone Company to Submit to an Audit for Purposes of Determining Its Cost-Based Kansas Universal Service Fund Support, Pursuant to K.S.A. 66-2008.**

The KCC opened this proceeding at the request of Commission Staff to Order Gorham to submit to an audit for purposes of determining its cost-based KUSF support, pursuant to K.S.A. 66-2008. Gorham

made its compliance filing on June 1, 2012, in which it requested an increase of \$1,073,777 in addition to its then current annual KUSF draw of \$179,357 for a total of \$1,257,500. On October 18, 2012, Commission Staff filed its testimony recommending Gorham's annual KUSF support be increased by \$543,215 for a total annual KUSF support amount of \$722,572. The parties reached a Stipulated Settlement Agreement in which Gorham's total annual KUSF support amount would be set at \$744,357 per year. The KCC issued an Order on December 5, 2012, adopting the Stipulated Settlement Agreement.

**In the Matter of Staffs Motion Requesting the Commission Order LaHarpe Telephone Company, Inc. to Submit to an Audit for Purposes of Determining its Cost-Based Kansas Universal Service Fund Support, Pursuant to K.S.A. 66-2008.**

The KCC opened this proceeding at the request of Commission Staff to Order LaHarpe to submit to an audit for purposes of determining its cost-based KUSF support, pursuant to K.S.A. 66-2008. LaHarpe made its compliance filing on August 15, 2012, in which it requested an increase of \$525,162 in addition to its current annual KUSF draw of \$149,090 for a total of \$674,252. On December 19, 2012, Staff filed testimony recommending LaHarpe's KUSF support be reduced from its current draw of \$149,090 to \$0. Rebuttal testimony is due January 16, 2013, and a settlement conference is scheduled for January 22, 2013. A Commission Order is scheduled to be issued by April 12, 2013.

<http://estar.kcc.ks.gov/estar/portal/kcc/page/docket-docs/PSC/DocketDetails.aspx?DocketId=262ee6eb-6dc0-4dd1-a6a7-57b448b60aaf>

The Commission acted upon 60 dockets filed by Large Telecommunications Utilities from July 1, 2011, to June 30, 2012. These filings involved companies with operating revenues of more than \$10,000,000.

# Transportation

The role of the Transportation Division of the Kansas Corporation Commission (KCC) is to ensure appropriate and effective regulatory oversight of motor carriers, with the goal of protecting the public interest and promoting safety through comprehensive planning, licensing, education, and inspection to the extent not preempted by federal law.

## Motor Carriers

The chief responsibility of the Transportation Division is to develop, modify, and implement licensing, auditing, inspection and other administrative procedures that promote effective motor carrier operations, while balancing public interest and minimizing the administrative burden to the extent possible. Likewise, state law requires the KCC to verify that each new motor carrier is in compliance with the Commission's safety rules and regulations within 18 months of granting the motor carrier Commission operating authority. To advance the Division's established mission, the Transportation Division conducts comprehensive investigations and audits on new and existing motor carriers, taking appropriate action upon discovering unsafe conditions. The Transportation Division also works closely with the Kansas Highway Patrol (KHP) and the Federal Motor Carrier Safety Administration (FMCSA) to reduce the number of accidents involving motor carriers by promoting safety education to the motor carrier industry and through the oversight of state and federal regulations.

With regards to safety education, the KCC mails invitations to each Kansas based motor carrier that applies for and receives a new USDOT number. The invitations are mailed monthly and are designed to encourage the new motor carriers to attend the free Commission sponsored safety seminars focused on the state and federal motor carrier rules and regulations. The Special Investigators (SIs) conduct the educational safety seminars throughout Kansas six times per month. Currently, motor carriers may now attend one of these seminars in Topeka, Chanute, Hutchinson, Pratt, Hays, or Garden City. These seminars are designed to inform and educate new, existing, and out-of-compliance motor carriers of the Commission's rules and regulations. Additionally, the Transportation staff also conducts educational safety seminars for the graduating classes at the truck driving technical schools in Liberal, Kansas City, and Fort Scott.

Since the inception of the federal Comprehensive Safety Analysis (CSA) program, FMCSA has responded to concerns from industry and enforce-

ment by updating the program in an effort to improve their motor carrier safety compliance program. The goal of the CSA program is to intervene early enough in a motor carrier's operation to identify problem areas and provide an opportunity for the motor carrier to correct the concerns before an accident occurs. The Federal New Entrant program requires all motor carriers seeking a federal interstate USDOT number to pass a safety audit within 18 months of beginning operations.

The CSA program focuses on 16 regulations that are considered essential to a motor carrier's basic safety plan and therefore necessary to operate in interstate commerce. The CSA audit uses on-road safety performance data to measure a carrier's safety fitness. The data is classified into seven specific categories of carrier/driver behavior to include: unsafe driving; fatigued driving (Hours of Service violations); driver fitness concerns; controlled substances/alcohol programs; vehicle maintenance concerns; cargo related safety concerns; and the carrier's crash indicator. A motor carrier's failure to comply with any

one of the 16 regulations results is an automatic failure of the safety audit. A motor carrier who fails a new entrant safety audit is provided formal notice of the failure and 60 days to correct the problems identified. Only those carriers who fail to correct the problems or who fail to request either additional time or a formal review are subject to revocation of the carrier's interstate operating authority. On the other hand, a carrier who passes the review is moved to the bottom of the review list until such time as the carrier's safety indicators decline and require official intervention.

With regard to motor carrier safety, the Commission, the Kansas Department of Revenue and the Kansas Highway Patrol implemented a system which is aimed at halting the intrastate motor carrier operation of those interstate carriers who have failed to meet the minimum safety requirements of a New Entrant Safety Audit. The Commission staff will submit formal recommendations to the Commission recommending suspension of the carrier listed on a federal out-of-service order. The Director of Vehicles will issue a "tag pick-up" request to the Kansas Highway Patrol.

The KCC, KHP, KDOR, and FMCSA share responsibilities in the oversight of both the state and federal motor carrier safety and economic rules and regulations. This partnership has proven to be extremely efficient and effective in contacting more carriers and drivers and in identifying high risk carriers and drivers. As a result, it is possible for FMCSA and state oversight agencies to apply a wider range of interventions aimed at correcting high risk behavior.

## Update: Commercial Driver's License (CDL) Reciprocity Agreements

With our counterparts in Missouri, Nebraska, and Oklahoma, Kansas has entered into Reciprocity Agreements which permit Kansas farmers to operate their commercial driver's license (CDL)

class commercial motor vehicles (CMV) in interstate commerce within 150 miles of the farmer's place of operation without the necessity of obtaining CDL under certain conditions. A farmer may benefit under this exemption when the farmer operating a vehicle holds a valid driver's license in the farmer's home state and the vehicle is properly operated as a farm vehicle under the laws of the state. The vehicle must be registered as a farm vehicle and be controlled and operated by a farmer for the exclusive purpose of transporting agricultural products, farm machinery, and/or farm supplies to or from the farmer's farm. In October the FMCSA alerted motor carriers and enforcement officials of their new statutory exemptions in the MAP-21 legislation. The federal statutory provisions are self-executing and took effect on October 1, 2012. This exemption eliminates the need for our CDL Reciprocity agreements for the purpose of safety regulations; however, farm vehicle drivers still need the agreements for the Hazardous Materials exemptions. We continue to work on a similar agreement with representatives from Colorado.

## Civil Assessment Program

The Kansas Corporation Commission (KCC) and the Kansas Highway Patrol (KHP) joined efforts in January, 2006, to enhance the Kansas Safety Compliance Program through a Civil Assessment Penalty Program. The primary goal of the program is to reduce the number of injury/fatality accidents involving commercial motor vehicles through increased oversight of the driver and motor carrier safety compliance. The KCC and KHP began working on this project as a direct result of the 2004 Kansas statistics relevant to commercial motor vehicles involved in injury and fatality accidents, which spiked dramatically.

The program emphasized the responsibilities of drivers and motor carriers under the Federal Motor Carrier Safety Regulations (FMCSR) regarding "out-

of-service" violations. These violations are serious in nature and require that a driver or vehicle be removed from service until the violations are corrected. This category of violations was established through the Commercial Vehicle Safety Alliance (CVSA). CVSA is a nonprofit organization consisting of federal and state regulatory agencies, along with representation from the motor carrier industry dedicated to improving motor carrier safety.

- Effective January 1, 2006, KHP officers began issuing misdemeanor citations to drivers for out-of-service violations of the FMCSRs discovered during roadside safety inspections. This change in policy emphasizes driver responsibility and accountability. Items under their direct control include hours of service, safety fitness of vehicles through daily vehicle inspections, and cargo security.

- Effective April 1, 2006, the KCC began assessing civil penalties to motor carriers for out-of-service violations of the FMCSR discovered during roadside inspections. This component of the program emphasizes the responsibility of motor carriers to ensure compliance with the FMCSR and holds them accountable for any failure to comply. Examples include: requiring drivers to operate unsafe equipment; not having the proper credentials to operate the vehicle; and operating overweight vehicles.

An evaluation of the effectiveness of the roadside inspection program using information provided by the Motor Carrier Management Information System (MCMIS) reveals that Kansas conducted 52,454 inspections in 2009, and 57,012 inspections in 2012. While the number of inspections increased, the out-of service (OOS) rates for drivers have decreased from 7.2% in FY 2009 to 5.44% in FY 2012. Likewise, the OOS for the vehicles fell from 15.12% in FY 2009 to 14.52% in FY 2012. The state's aggressive oversight effort has been a direct contributor towards this downward trend of overall OOS violations.

## 2012 Commercial Vehicle Information Systems Networks (CVISN) Grant Update

In the summer of 2010, the FMCSA identified financial irregularities in the CVISN Program. As a result, the USDOT Assistant Secretary for Budget and Programs tasked Deloitte Consulting to review the CVISN program. Once the results became available, USDOT and FMCSA legal staff added conclusions to the Deloitte report, and delivered it to the Assistant Secretary in December of 2010. Also in December 2010, the FMCSA's Governmental Accountability Office (GAO) began a review of the program at the request of Congress. Currently, the Agency is responding to requests for information from both the Assistant Secretary and the GAO. The initial schedule was for late spring, 2011.

In May of 2012, GAO posted its report. Several states were tagged with minor violations. The report indicated Kansas was in violation because the state had received \$85,000 in expanded CVISN funds prior to Core certification. The funds were used for a portion of a 2007 IT grant that was designated for expanded activities prior to the State being core certified. As of July 1, 2011, FMCSA had not determined how the states could correct this violation but indicated that it would not restrict the states from applying for additional grants.

In early June, FMCSA opened up the 2011 CVISN grant funds, and on June 23, 2011, the KCC Motor Carrier Re-write application was successfully uploaded. On September 23, 2011, the division received confirmation from FMCSA that the grant was approved. However, shortly after receiving approval the Kansas Division Administrator for FMCSA notified the KCC that his office was reviewing the KCC's grant match, and the program was put on hold pending the results of their review.

In February of 2012, the FMCSA notified the KCC that the Motor Carrier Re-write application had been rejected and that they would continue to look for additional options. The KCC worked with the FMCSA and submitted an amended match strategy. In June of 2012, the KCC Motor Carrier Re-write Amendment was delivered to the Kansas Division Administrator for review. On September 11, 2012, the KCC was notified that our Grant Amendment had been accepted.

Due to the absence of a Director of the IT Department, further development of this project will be placed on hold until such time that the vacant IT Director position has been filled, and the IT Director can evaluate the Motor Carrier Re-write project.

## KCC Motor Carrier Authority System Rewrite Description

The KCC Motor Carrier Authority System Rewrite will enhance KCC Motor Carrier functions. The phases of this project include:

- Porting system into a modern database environment with Internet-based functionality. (Public-facing functions allowing for electronic submission of information.)
- Development of a "wizard" based portal to provide carriers with a question and answer process to obtain information needed to conduct motor carrier business in Kansas. Interview would determine which credentials and authorities are needed.
- Establishing key system interfaces with other agencies to share information. This activity includes developing PRISM functionality for testing intrastate carriers prior to issuing KCC authorities and tying civil assessments to renewals and roadside oversight activities.
- Development of a real-time link to KSCVIEW to provide roadside oversight with access to permit data.

## Federal Interstate Authority Issue

### HISTORY

The Unified Carrier Registration (UCR) Agreement is found in 49 USC section 14504a (hereinafter referred to as section 14504a). The UCR Agreement is established by federal law in the UCR Act, which is part of the federal highway reauthorization bill known as the Safe, Accountable, Flexible, Efficient Transportation Equity Act, A Legacy for Users ("SAFETEA-LU"), Public Law 109-59, enacted August 10, 2005.

The UCR Act is sections 4301 through 4308 of SAFETEA-LU. In particular, the structure of the UCR Agreement is set forth in section 4305 of the UCR Act, which enacts section 14504a as a new section in 49 USC.

The UCR Agreement was amended under Section 301 of the SAFETEA-LU Technical Corrections Act of 2008, Public Law 110-244, enacted June 6, 2008, and in the Rail Safety Improvement Act of 2008, Public Law 110-432, enacted October 16, 2008. As of September 2011, SAFETEA-LU is currently under extension awaiting a new act of Congress. In the meantime, UCR remains in full force and effect and compliance is mandatory.

### SUMMARY

The federal UCR (Unified Carrier Registration) agreement requires all for-hire motor carriers transporting property or passengers, and motor private carriers transporting property in interstate commerce, as well as brokers, freight forwarders, and leasing companies to register with the United States Department of Transportation and pay UCR fees. Entities that receive USDOT numbers under the PRISM program as "registrants," but have no interstate operating authority, purely intrastate carriers, and private motor carriers transporting only passengers are not subject to UCR fees.

The UCR fees are structured based on fleet size, and trailers have been permanently removed from the fee calculation.

Oversight of non-payment of UCR fees began January 1, 2009, and is conducted through Kansas Highway Patrol verifying compliance through roadside inspections and at Ports of Entry, and through the Transportation Division Compliance Reviews. Additionally, the Transportation Division mails notices to each Kansas-based motor carrier which acknowledges interstate activity on its USDOT profile, but has not registered or paid UCR fees for the appropriate year.

## **RESULTS**

Collection of UCR fees directly affects a state's receipt of its allotment of federal funds. Kansas is focused on making the UCR program work as effectively and efficiently as possible. The Transportation staff closely monitor the program and participate through quarterly conference calls with FMCSA and fellow state representatives. Staff has consistently responded to any calls for assistance and has shared information now found in the program's oversight best practice guide. Kansas remains dedicated to this program and is annually ranked among the top states for compliance with the UCR as measured by the registration of motor carriers.

## **CONCLUSION**

The Transportation Division has undertaken significant efforts to enhance the oversight responsibilities within its purview and has made significant improvements in motor carrier safety and economic regulation. The Transportation Division continues to explore ways to enhance and refine its role.

The Commission acted upon 254 Transportation filings from July 1, 2011, to June 30, 2012. These filings pertained to rates, operating authority, and safety-related matters for motor carriers and railroads.

## GENERAL INVESTIGATION MULTI INDUSTRY

<i>Docket number</i>	08-GIMX-1142-GIV
<i>Docket type</i>	General Investigation
<i>Date filed</i>	30 Jun 2008
<i>Action date</i>	—
<i>Commission action</i>	—

Based on a June 30, 2008, motion from Staff, the Commission opened a general investigation into certain depreciation issues affecting electric and gas utilities on August 13, 2008. The Commission Order requested that the Parties provide comments regarding what depreciation issues should be addressed. After receiving comments, the Commission issued an Order on May 26, 2010, outlining the depreciation issues that the Parties to the docket were to address. The primary issues are: (1) the treatment of non-legal asset retirement obligations, such as net salvage costs, in light of FERC Order 631, (2) the treatment of terminal net salvage in decommissioning generating facilities, and (3) determining the life expectancy of an asset using the Equal Life Group method. The Parties filed comments and reply comments in 2011 that addressed the issues identified. However, the Commission has not been able to issue an order on the investigation due to the number of rate cases that have been filed which included depreciation studies addressing the specific issues before the Commission in this docket. The final rate case docket that included a depreciation study will have a final order in January 2013, so the Commission anticipates having an order in this docket in early 2013.

## GENERAL INVESTIGATION MULTI INDUSTRY

<i>Docket number</i>	12-GIMX-337-GIV
<i>Docket type</i>	General Investigation
<i>Date filed</i>	09 Nov 2011
<i>Action date</i>	—
<i>Commission action</i>	Pass

### **In the Matter of a General Investigation of Energy-Efficiency Policies for Utility Sponsored Energy-Efficiency Programs.**

Noting the need to clarify Docket No. 08-GIMX-441-GIV (441 Docket) and Docket No. 08-GIMX-442-GIV (442 Docket), Commission Staff filed a Report and Recommendation, on recommending that a new general investigation docket be opened wherein specific difficulties concerning energy efficiency policy can be identified and resolved. On November 9, 2011, the Commission issued an order opening this docket to investigate the need for further clarification to the Commission's orders in the 441 and 442 Dockets.

On December 5, 2011, Staff proposed a list of issues addressing natural gas inclusion, performance incentives, and program cost recovery for the Commission's consideration. All parties to the docket were given an opportunity to respond to Staff's proposed list and submit alternative questions for the Commission's consideration and, after reviewing the parties comments and responses, the Commission requested parties file testimony addressing three questions: (1) What uncertainties or ambiguities in the Commission's orders, rules and regulations, if any, inhibit the offering of energy-efficiency or demand-side-management programs? (2) What Commission orders, rules and regulations, or practices, if any, inhibit the offering of energy efficiency or demand-side-management programs? (3) What conditions are necessary for successful energy-

efficiency and demand-side-management programs in Kansas?

Several parties filed Direct and Cross-Answering Testimony providing information for the Commission's consideration of the questions posed. On August 15, 2012, the Prehearing Officer reported that Commission Staff is needed to serve in a technical advisory role to the Commission in this docket, and recommended the Commission designate Staff to advise the Commission in a technical advisory capacity. Staff was further directed to file their comments and information in Technical Advisory Reports on or before Thursday, November 1, 2012.

## NON-DOCKETED

### **CHRISTENSEN ASSOCIATES STUDY**

The Christensen Associates consulting group (Christensen) was hired in 2009 to help the Commission explore the role of rate design as part of its broader energy efficiency policy initiative. In the spring of 2010, two workshops were directed by Christensen—the first workshop examined rate design options and their potential effect on conservation, and the second workshop investigated the use of customer education to encourage energy conservation. Subsequently, Christensen worked in a collaborative manor with KCC Staff and utilities personnel, narrowing the focus of the remaining work solely to rate design. The Christensen Final Report was submitted in February 2012. The final report was a compilation of three rate design studies<sup>1</sup> plus the initial work Christensen did on behavior modification and consumer education. Because these three studies are mainly policy neutral, they are primarily used by KCC Staff as reference sources.

1 1) Residential Rate Study; 2) Electric Vehicle Rate (EVR) Study; and 3) The Critical Peak Pricing for Commercial and Industrial Customers (C&I) Study.

# Dockets | MULTI INDUSTRY

The Commission acted upon 8 Multi Industry filings from July 1, 2011, to June 30, 2012. These filings involved issues generic to a particular industry segment.
