### MINIMUM STANDARDS FOR PAYMENT METHODS FOR UTILITY BILLS AND ALLOWING THE ACCEPTANCE OF CREDIT CARDS BY KANSAS JURISDICTIONAL ELECTRIC, NATURAL GAS, AND WATER UTILITIES

Effective: November 22, 2005

The following standards for bill paying methods shall apply:

- (A) Customers can choose the method of bill payment.
- (B) A "zero fee" payment method is one in which the customer is not charged a fee for use of the payment method above the actual amount of the utility bill being paid. Postage or money order fees necessary to mail a payment shall not be considered a fee. A "nonzero fee" payment method is any payment method for which the utility or its authorized agent proposes to charge a fee above the actual amount of the utility bill being paid.
- (C) Customers shall be provided a choice of zero fee payment methods which shall include, at a minimum, payment by mail using check or money order, and payment in person using check, money order, or cash. If electronic checks (ECM) are accepted by the utility or by an authorized agent of the utility, they shall be accepted as a zero fee method.
- (D) The following general principles shall govern the use of nonzero fee payment alternatives such as credit, debit and ATM card payments (hereinafter "credit cards"):
  - (1) the utility shall fully disclose: (i) all payment methods; and (ii) the fees to the customer associated with each payment method; and

- (F) Unless otherwise authorized, customers paying utility bills by any zero fee payment method shall not be charged a fee to transact business with the utility or with an authorized agent of the utility.
- (G) Utilities have the option to offer electronic payment methods such as credit cards according to the desires of its customers and the ability of the utility to accommodate them. Utilities are not required to offer customers the opportunity to pay their bills with such payment methods.
- (H) Utilities wanting to accept nonzero fee payment alternatives as a form of payment must have Commission approval.

(1) If utilities make alternative payment options such as credit cards available, utilities shall make a diligent effort to provide customers with a reasonably cost effective means of utilizing such payment methods.

(2) The fees associated with credit card use shall cover all of the costs to the utility of such payment methods. Customers not paying with credit cards shall not be burdened with the transaction costs of customers utilizing these payment methods. Any fees associated with credit card use should be reasonably related to the costs of payment by credit card and the receipt of such fees by the utility should be revenue neutral to the utility.
