KANSAS

CORPORATION COMMISSION

KATHLEEN SEBELIUS, GOVERNOR

BRIAN J. MOLINE, CHAIR

ROBERT E. KREHBIEL, COMMISSIONER

MICHAEL C. MOFFET, COMMISSIONER

January 2, 2006

The Kansas Corporation Commission (KCC) and the Kansas Highway Patrol (KHP) are joining efforts to enhance the Kansas Safety Compliance Program with one goal in mind, to reduce the number of injury/fatality accidents involving Commercial Motor Vehicles. This joint effort will result in formation of a Civil Assessment Penalty Program for noncompliance with safety regulations. Under the program, drivers and carriers may expect to see the following changes:

New KHP Policy “Driver”: Effective January 1, 2006, KHP officers have been trained and instructed to issue misdemeanor citations to drivers for the applicable out-of-service (OOS) violations of the Federal Motor Carrier Safety Regulations (FMCSR) discovered during roadside inspections as determined by the CVSA, North American Standard Out-Of-Service Criteria. This change in policy emphasizes the driver’s role, understanding and responsibility, and holds them accountable and liable for areas under their purview.

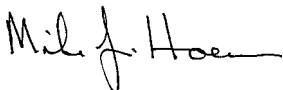

New KCC Civil Assessment Project “ Motor Carrier”: Effective April 1, 2006, the KCC will assess civil penalties to all motor carriers for the applicable OOS violations of the FMCSR’s discovered during roadside inspections as determined by the CVSA, North American Standard Out-Of-Service Criteria. This new program emphasizes the responsibility of motor carriers, and holds them accountable and liable for areas under their purview.

If a driver is issued a misdemeanor citation for an OOS violation, there will be no additional civil penalty assessed to the motor carrier for the same OOS violation. KCC will only issue one civil penalty fee for each OOS violation category. For example:

- The tractor of a combination vehicle is placed OOS for an air brake lining with a thickness less than 1/4 inch, as well as OOS for brake adjustment limits and the trailer is also placed OOS for brake adjustment limits, the company will be issued three OOS violations but only fined for one brake OOS.
- Scenario two, a driver is placed OOS for three OOS violations discovered during a roadside inspection. The OOS violations include an 11-hour rule, a 14-hour rule and a 70-hour rule violation. The driver will be issued a misdemeanor citation for the 11-hour OOS violation, the company will be issued three OOS violations, and because the driver will be cited for the 11-hour OOS violation, the company will not be issued a civil penalty.

As stated above, the KCC and KHP are joining efforts to reduce the number of injury/fatality accidents involving Commercial Motor Vehicles. This joint enforcement project will allow both the KCC and KHP to focus our resources on unsafe drivers and motor carriers, resulting in a more effective, efficient and safe environment for the motoring public. If you have any questions regarding this program, feel free to contact one of the agencies as indicated below. We appreciate your continued support in making the highways in the state of Kansas safer for everyone.

Sincerely,

Mike J. Hoeme, Director

UNIFIED CARRIER REGISTRATION SYSTEM

NOTICE

Any motor carrier or other entity that is required to obtain a USDOT, FF, MC or MX number and/or is required to register with FMCSA, or should be registered as an interstate or international commerce carrier, is subject to the UCR Agreement. This includes all interstate for-hire motor carriers transporting property or passengers, interstate motor private carriers of property, brokers, freight forwarders, and leasing companies.

Motor Carrier: The Unified Carrier Registration (UCR) System requires individuals and companies that operate commercial motor vehicles in interstate or international commerce to register their business and pay an annual fee based on the size of their fleet. A commercial motor vehicle (as defined under 49 USC Section 31101) means a self-propelled vehicle used on the highways in commerce principally to transport passengers or cargo, if the vehicle: (1) Has a gross vehicle weight rating or gross vehicle weight of at least 10,001 pounds, whichever is greater; (2) Is designed to transport more than 10 passengers, including the driver; or (3) Is used in transporting material found by the Secretary of Transportation to be hazardous under section 5103 of this title and transported in a quantity requiring placards under regulations prescribed by the Secretary under section 5103.

Small vehicle: Interstate for-hire motor carriers transporting property or passengers and interstate motor private carriers of property operating only small vehicles (gross vehicle weight rating or gross vehicle weight of 10,000 pounds or less, or designed to transport 10 passengers or less, including the driver) are subject to pay UCR fees. If the carrier only operated these small vehicles, the fleet size for UCR purposes would be zero and the carrier would register and pay the lowest fee category (Bracket B1).

Other entity: Brokers, freight forwarders, or leasing companies are required to pay the UCR fee at the lowest fee category (Bracket B1).

UCR Fee Bracket			
Bracket	Number of self-propelled CMVs owned or operated by motor carrier, or motor private carrier of property	Fee per company for motor carrier, or motor private carrier of property	Fee per company for broker, freight forwarder or leasing company

PART 395 – Hours of Service Regulations for (Property) Carrier Drivers

395.3(a) Except as otherwise provided in §395.1, no motor carrier shall permit or require any driver used by it to drive a property-carrying commercial motor vehicle, nor shall any such driver drive a property-carrying commercial motor vehicle, regardless of the number of motor carriers using the driver's services, unless the driver complies with the following requirements:

- (1) Start of work shift. A driver may not drive without first taking 10 consecutive hours off duty;
- (2) 14-hour period. A driver may drive only during a period of 14 consecutive hours after coming on duty following 10 consecutive hours off duty. The driver may not drive after the end of the 14-consecutive-hour period without first taking 10 consecutive hours off duty.
- (3) Driving time and rest breaks.
 - (i) Driving time. A driver may drive a total of 11 hours during the 14-hour period specified in paragraph (a)(2) of this section.
 - (ii) Rest breaks. Except for drivers who qualify for either of the short-haul exceptions in § 395.1(e)(1) or (2), driving is not permitted if more than 8 hours have passed since the end of the driver's last off-duty or sleeper-berth period of at least 30 minutes.

(b) No motor carrier shall permit or require a driver of a property-carrying commercial motor vehicle to drive, nor shall any driver drive a property-carrying commercial motor vehicle, regardless of the number of motor carriers using the driver's services, for any period after—

- (1) Having been on duty 60 hours in any period of 7 consecutive days if the employing motor carrier does not operate commercial motor vehicles every day of the week; or
- (2) Having been on duty 70 hours in any period of 8 consecutive days if the employing motor carrier operates commercial motor vehicles every day of the week.

(c) Any period of 7/8 consecutive days may end with the beginning of an off-duty period of 34 or more consecutive hours

It is recommended that motor carriers and drivers keep a summary (recap) of drivers' hours worked and hours available. This will prevent hours of service violations.

Every motor carrier must require every driver to make a record of duty status (log), in duplicate, for each 24-hour period;

Motor carriers and drivers who do not complete and keep records of duty status (logs) or who make false records of duty status (logs) can be prosecuted;

The driver must give or send by mail the original of the driver's record of duty status (log) to his/her motor carrier within 13 days after completing the record. The motor carrier must then keep the record of duty status (log) for 6 months;

Local Driver Provision: Drivers may extend the 14-hour on-duty period by 2 additional hours if they:

- (1) Are released from duty at the normal work reporting location for the previous 5 duty tours, and
- (2) Return to the normal work reporting location and are released from duty within 16 hours, and
- (3) Have not used this exception in the previous 6 days, except following a 34-hour restart of a 7/8 day period

Option #1: Drivers must have at least 10 consecutive and uninterrupted hours off duty;

Option #2: Drivers must have at least 10 consecutive and uninterrupted hours in the sleeper berth;

Option #3: CMV drivers using the sleeper berth provision must take at least 8 consecutive hours in the sleeper berth, plus 2 consecutive hours either in the sleeper berth, off duty, or any combination of the two;

Option #4: Drivers must have at least 10 consecutive hours sleeper berth and off duty time combined and uninterrupted;

Drivers using option #3 have to count the two hour period of sleeper berth or off-duty toward their 14 hour day. Drivers must understand, when using option #3, the driving time immediately before and after each 8 hour rest period, when added together shall not include any driving time after the 11th hour

Non CDL Short-Haul Provision Guidelines: A driver does not have to make a record of duty status (log book) if they can comply with the following short-haul requirements:

- Allows drivers of property carrying CMV's "Non CDL" to operate within a 150 air-mile (172.6 statute miles) radius of their normal work reporting location;
- Drivers may drive up to 11 hours after coming on duty following 10 or more consecutive hours off duty;
- Drivers are not required to keep Log Books, but must maintain time records;
- Drivers shall not drive after the 14 hour after coming on duty 5 days a week or after the 16 hour after coming on duty 2 days a week
- Employers must maintain and retain time records for a period of 6 months showing the time the duty period began, ended, and total hours on duty each day in place of RODS;

CDL Short-Haul Guidelines: A driver does not have to make a record of duty status (log book) if they can comply with the following requirements:

- (1) The driver operates within a 100 air-mile (115.08 statute miles) radius of the normal work reporting location;

 - (i) The time the driver reports for duty each day;
 - (ii) The total number of hours the driver is on duty each day;
 - (iii) The time the driver is released from duty each day; and
 - (iv) The total time for the preceding 7 days for drivers used the first time or multiple-employer drivers.

 - (1) More than 10 hours following 8 consecutive hours off duty; or
 - (2) After being on duty 15 hours; or
 - (3) After being on duty more than 60 hours in any 7 consecutive days
- A motor carrier operating vehicles every day of the week cannot allow or require any driver to drive after being on duty more than 70 hours in any 8 consecutive days

PART 396-INSPECTION, REPAIR AND MAINTENANCE

Every motor carrier must see that all its vehicles are regularly inspected, repaired and maintained.

All vehicle parts and accessories must be in a safe and proper working order at all times.

Pushout windows, emergency doors and emergency door-marking lights in buses must be inspected at least every 90 days.

Generally, motor carriers must see that the following maintenance records are kept on each commercial motor vehicle:

- (1) An identification of the vehicle including company number (if so marked), make, serial number, year and tire size. Also, if the carrier does not own the vehicle, the records must show the name of the person providing the vehicle.
- (2) A way to show the type and due date of the various inspections and maintenance operations to be performed.
- (3) A record of inspection, repairs and maintenance showing their date and type.
- (4) A lubrication record.
- (5) A record of tests conducted on pushout windows, emergency doors, and emergency door-marking lights on buses.

Maintenance records must be kept where the vehicle is either housed or maintained for a period of 1 year and for 6 months after the vehicle leaves the motor carrier's control.

A vehicle must not be driven if it is likely to break down or cause an accident.

Every motor carrier must require its drivers to complete a vehicle inspection report at the end of each day. The report must identify the commercial motor vehicle and list anything wrong that could affect its safe operation.

Before the vehicle is driven again, the motor carrier must repair any safety defects listed and sign the vehicle inspection report.

A copy of the last vehicle inspection report must be available to the driver. Every motor carrier must keep the original vehicle report for at least 3 months.

(New Federal Rule effective 12/18/2014, drivers operating in INTERstate commerce a property carrying commercial motor vehicle are not required to prepare or submit a report if no defect or deficiency is discovered by or reported to the driver.)

Before driving a commercial motor vehicle the driver must do the following:

- (1) Be satisfied that it is in safe operating condition;
- (2) Review the last inspection report; and
- (3) Sign the report if defects were listed and the report has been signed to show that repairs were made.

DEFINITIONS AS USED IN THIS ENDORSEMENT

ACCIDENT includes continuous or repeated exposure to conditions which results in bodily injury, property damage, or environmental damage which the insured neither expected nor intended.

MOTOR VEHICLE means a land vehicle, machine, truck, tractor, trailer, or semi trailer propelled or drawn by mechanical power and used on a highway for transporting property, or any combination thereof.

BODILY INJURY means injury to the body, sickness, or disease to any person, including death resulting from any of these.

ENVIRONMENTAL RESTORATION means restitution for the loss, damage, or destruction of natural resources arising out of the accidental discharge, dispersal, release or escape into or upon the land, atmosphere, watercourse, or body of water, of any commodity transported by a motor carrier. This shall include the cost of necessary measures taken to minimize or mitigate damage to human health, the natural environment, fish, shellfish, and wildlife.

PROPERTY DAMAGE means damage to or loss of use of tangible property.

PUBLIC LIABILITY means liability for bodily injury, property damage, and environmental restoration.

The insurance policy to which this endorsement is attached provides automobile liability insurance and is amended to assure compliance by the insured, within the limits stated herein, as a motor carrier of property, with Sections 29 and 30 of the Motor Carrier Act of 1980 and the rules and regulations of the Federal Motor Carrier Safety Administration.

In consideration of the premium stated in the policy to which this endorsement is attached, the insurer (the company) agrees to pay, within the limits of liability described herein, any final judgment recovered against the insured for public liability resulting from negligence in the operation, maintenance or use of motor vehicles subject to the financial responsibility requirements of Sections 29 and 30 of the Motor Carrier Act of 1980 regardless of whether or not each motor vehicle is specifically described in the policy and whether or not such negligence occurs on any route or in any territory authorized to be served by the insured or elsewhere. Such insurance as is afforded, for public liability, does not apply to injury to or death of the insured's employees while engaged in the course of their employment, or property transported by the insured, designated as cargo. It is understood and agreed that not condition, provision, stipulation, or limitation contained in the policy, this endorsement, or any other endorsement thereon, or violation thereof, shall relieve the company from liability or from the payment of any final judgment, with the limits of liability herein described, irrespective of the financial condition, insolvency or bankruptcy of the insured. However, all terms, conditions and limitations in the policy to which the endorsement is attached shall remain in full force and effect as binding between the insured and the company. The insured agrees to reimburse the company for any payment made by the company on account of any accident, claim, or suit involving a breach of the terms of the policy, and for any payment that the company would not have been obligated to make under the provisions of the policy except for the agreement contained in this endorsement.

It is further understood and agreed that, upon failure of the company to pay any final judgment recovered against the insured as provided herein, the judgment creditor may maintain an action in any court of competent jurisdiction against the company to compel such payment.

The limits of the company's liability for the amounts prescribed in this endorsement apply separately, to each accident, and any payment under the policy because of any one accident shall not operate to reduce the liability of the company for the payment of final judgments resulting from any other accident.

The Motor Carrier Act of 1980 requires limits for financial responsibility according to the type of carriage and commodity transported by the motor carrier. It is the motor carrier's obligation to obtain the required limits of financial responsibility.

APPLYING IFTA
“International Fuel Tax Agreement”
10/2008

BOARD INTERPRETATION:

The Consensus Board Interpretation is that the axles of a trailing unit have no bearing on this definition. The part of the definition alluding to the number of axles applies only to the axles on the power unit, irrespective of any trailing units. The Board agreed that a power unit with two axles, pulling a trailing unit, with a combined gross or registered weight of 26,000 pounds or less is not a qualified motor vehicle. The first and second definitions of a qualified motor vehicle refer only to the power unit. The third definition refers to the combination of the power unit and the trailing unit.
