**KANSAS CORPORATION COMMISSION**

**CONSUMER ALERT**

## **American Energies Gas Service Deferred 2021 Winter Weather Event Costs**

On July 8, 2021, the Kansas Corporation Commission (KCC) approved a plan outlining how American Energies Gas Service will recover \$317,914 in deferred natural gas costs incurred during the February 2021 winter weather event.

Under the plan, customers have the option to make monthly payments over a 5-year period or make a lump sum payment. Customers that choose to make a lump sum payment will avoid the monthly carrying charges over 60 months. The payment amounts are based on individual customer usage during February 2021.

It is important to note that any recovery of costs through ongoing federal or state investigations into price gouging, market manipulation or civil suit resulting from the weather event will be passed on to customers.
